## TANCO'S CLARIFYING NOTES, ASSUMPTIONS AND EXCLUSIONS

### Schedule

1. This proposal is firm for acceptance for 30 days.
2. The schedule in this proposal is based on our current workload and is contingent upon receipt of materials as committed to us. Our labor forces and equipment are subject to prior sale.
3. This proposal is based on one move in; one move out. Any additional mobilization or shutdown time due to customer will be billed as an extra.
4. Any period of delay due to causes beyond the reasonable control of TANCO will be added to the time for completion of this work.

### Clarifications

1. We assume that access to the tank site and a suitable work area around the tank will be provided. We also assume that the site is in a well-drained area and that soil conditions will allow our trucks and equipment to move around the area under their own power. If required, the work and storage areas will be kept free of excessive dust, ice, mud, and/or water by others.
2. Purchaser shall provide clear and open space adjacent to the construction site adequate for receiving and storing materials and construction equipment. As a safety precaution, our field construction forces do not operate hoisting equipment or install rigging within 15 feet of live 220 volt electric power lines (larger clear distances are required for lines of higher voltage). If such are present at the time of construction, the cost of moving them or otherwise making them safe will be for the Purchaser's account.
3. TANCO is to be notified of any conditions that may present a danger to our crew.
4. We have assumed that once the tank has been gas-freed and isolated, any special requirements will be unnecessary. Our pricing does not include such items as fresh air gear, air educators, lifelines, special clothing or PPE, warning horns, explosion-proof lights or standby rescue crews.
5. Our proposal does not include costs for dealing with hazardous or contaminated materials, including, but not limited to, lead based paint.
6. Our price does not include piping or valves beyond the exterior flanges on the tank nozzles.
7. We have relied on the drawings and specifications provided in developing our price. Any revisions or corrections to the information provided will be evaluated for impact to our quoted price and schedule.
8. Taxes have NOT been included in our price. Tanco will collect any applicable taxes at the end of the project.

Thank you for the opportunity to submit this proposal. The above clarifications and comments are intended to communicate the basis of our proposal. TANCO will gladly negotiate changes to best suit your requirements. If there are any questions, or if we can be of further service, please contact us at your earliest convenience. We look forward to working with you in the near future.
