This report is based on the walk through of your facility.

To the best of our knowledge there are nineteen (19) extinguishers within the facility that require an annual inspection. Some of the extinguishers do need additional maintenance completed (i.e. – 6 yr. or hydro maintenance).

The only expenses that are not listed are the potential internal parts of the extinguishers. Periodically the valve stems and o-rings need to be replaced and that can only be determined at the time of maintenance and parts inspection. These parts however are included for you in the following prices.

**AUTOMATIC FIRE SPRINKLER SYSTEMS
JULY 1, 2020 THROUGH JUNE 30, 2021**

This proposal is based on a walk through of the facility and the following was observed:

There is one Wet System that protects the facility. The cost for this system is \$325.00 for the annual and \$175.00 for the quarterly.

These systems have weekly, monthly, quarterly and annual inspections that are NFPA required. Usually, in house maintenance personnel perform the weekly and monthly inspections.

Trained personnel perform the quarterly and annual inspection and the appropriate paperwork is completed and submitted to the facility manager, the fire department and a copy is on file in our office.

This quote does not include the cost for any repairs, modifications, or replacement parts that may be required during the contract period.
