The Laramie County Sheriff's Office currently utilizes ballistic shields that are rated NIJ IIIA, which means they are rated to stop bullets fired from handguns. However, these shields DO NOT provide any ballistic protection for deputies from bullets that are fired from rifles. Currently, there is an apparent upward trend in the use of rifles during active shooter events. Deputies responding to these types of incidents are at a severe disadvantage in terms of protection from a rifle-armed threat, as the current shields provide no protection, and only the deputy's chest area is protected from rifle fire. This leaves their head/arms/abdominal area exposed to devastating injury from rifle fire. Time is of the essence in stopping an active shooter event, and deputies will be unable to end the threat to others if they become casualties themselves. We are requesting the purchase of four ballistic shields that are rated for rifles. Two would be dedicated to patrol operations and two of the shields would be dedicated for SWAT Operations.

4. List your AEL Codes here. REQUIRED for all equipment requests. The AEL is available at <http://www.fema.gov/authorized-equipment-list>.

Some equipment items require prior approval before the obligation or purchase of the items. Please reference the grant notes for each equipment item to ensure prior approval is not required.

01LE-01-SHLD Ballistic Shield will be the AEL code we would be using.

8. Have you applied for other grant opportunities to fund this request?

If yes, please name what other grants have been applied for, the amount of funding received and what portion of the project the funding was for.

We have not applied for other grant opportunities to fund this request.

9. Does this project support a previous SHSP award?

☐ NO

13. Does this project address gaps identified in the THIRA/SPR?

☒ YES

☐ NO

14. If YES to #13, explain how this project ties into your THIRA/SPR and how it addresses the gap. If NO, explain what other assessments, exercises or real world events identified the gap being addressed.

(For example: cyber/physical security assessment)

Our THIRA identified On-scene security, protection and law enforcement as an area that we need to continue to build and sustain. Our office wants to continue to ensure a safe and secure environment for both law enforcement officers and citizens. In addition to active shooter events, Laramie County deputies operate in a county that has a large rural population, where the possession of rifles is a normal and expected occurrence. The terrain deputies operate in is often open, providing little or no cover when dealing with situations like suicidal subjects, domestic disturbances, and burglaries. Rifle-rated ballistic shields will provide a much higher level of protection to deputies when operating in open terrain and with suspects likely armed with rifles. This request will help to sustain on scene security, protection and law enforcement capabilities as addressed in the THIRA by providing deputies with the protection they need.

15. All projects under this grant must have a nexus to terrorism. Please describe how your project relates to acts of terrorism.

The Laramie County Sheriff's Office/Cheyenne Police Department SWAT Team responds to active calls for assistance. Often times these situations are geared towards protecting the community from violent offenders or responding to turbulent situations involving deadly weapons. In these situations ballistic shield's have been proven to assist law enforcement officers in emergency response for more efficient scene security. With the increase of domestic terrorism over the years, having this equipment has become essential to the safety of our officers and citizens alike.

16. Provide justification on how the project will be maintained, supported, and sustained.

The requested rifle rated ballistic shields require little to no maintenance. Laramie County will assume all responsibility for the sustainment of the requested equipment in partnership with the joint SWAT Team. All equipment will be inspected on a regular basis and will be available for immediate use.

Milestones

Submit a minimum of four (4) milestones for all projects. Milestones should represent a logical progression of the project to allow for realistic monitoring and management of grant funding. This attribute will function as a tool for measuring project progress in future reporting periods. Provide a high level narrative description of activities to occur within each milestone including anticipated milestone dates/timeframes.

23. First Milestone/Key Activity. Include your projected Start and End Dates.

Example: December 15, 2022 to December 15, 2023.

A grant award is expected to occur in October 2023. We will establish a budget and accounting line items to prepare for the funding. Upon award, the County will follow policies for procurement.

24. Second Milestone/Key Activity. Include your projected Start and End Dates.

Example: December 15, 2022 to December 15, 2023.

It is estimated that contracting and purchasing will take place in November 2023 through January 2024.

25. Third Milestone/Key Activity. Include your projected Start and End Dates.

Example: December 15, 2022 to December 15, 2023.

We anticipate receiving the equipment between February and April 2024 and will work to implement and incorporate the shields into operations.

26. Fourth Milestone/Key Activity. Include your projected Start and End Dates.

Example: December 15, 2022 to December 15, 2023.

Our final milestone will be to close out and finalize all items for the grant from the Wyoming Office of Homeland Security. We anticipate being complete with all activities by June 2024.

Additional Information

27. Provide any additional information about the project you would like us to consider.

You may upload a document if you need more space.

The Cheyenne Police Department/Laramie County Sheriff's Office Joint SWAT Team does not have any rifle-rated ballistic shields. The SWAT team primarily deals with barricaded suspects who are suspected of committing violent felonies. As with deputies, SWAT operators do not have any ballistic protection from rifle bullets other than their chest armor. Additionally, many rifle-rated ballistic shields are extremely heavy, requiring them to be mounted to a wheeled platform, which severely limits their mobility, especially when operating on uneven terrain and within structures. The requested shields are designed to be light enough that they can be carried by an

individual.

The Zoom Grants page shows that Laramie County's Sam.gov registration expired on 12/27/22, this is incorrect. A copy of our active registration has been attached to this application.

Budget Narrative

We are requesting grant funds to purchase four rifle ballistic shields (such as Blueridge Armor WMX3RF with viewpoint). We have attached a form showing this shield and its specifications. Shields are approximately \$10,000 each, for a total of \$40,000 being requested. Two of the shields would be dedicated for patrol operations, and two of the shields would be dedicated for SWAT operations. We would be using the AEL Code 01LE-01-SHLD for this purchase.
