TO: Laramie County Board of Commissioners

DATE: 05/13/2021
TITLE: Application Request for Zone Change from CB (Commercial Business) to PUD (Planned Unit Development) for Murry Hills Estates Lot 1, Block 4, Laramie County, WY

INTENT AND PURPOSE

Ray and Amanda Angel respectfully request a zone change for Murray Hills Estates Lot 1, Block 4, property. The 2.26-acre vacant lot is currently zoned for Community Business (CB). We are requesting a zone change to a Planned Unit Development (PUD) that would allow for an enclosed, covered, and outdoor recreational storage unit facility consisting of 105-115 units for rent with security and electricity on site.

FUTURE LAND USE

Plan Cheyenne

The "Future Land Use Plan" describes this property as best suited for "*Community Business category emphasizes a range of retail and office uses to serve neighborhoods and the community and region, and some align with designated Commercial/Regional Activity Centers.*" We feel by building a recreational storage facility we are meeting Plan Cheyenne's desired goals to "*where possible, provide access and connections to nearby neighborhoods using internal streets and sidewalks*". We would be blending a community business with the nearby neighborhood in terms of scale, design, signage, and lighting. Lastly, we would provide a quality site and building design to enhance property values and economic resiliency. This guidance can be found in the following link:

<https://www.plancheyenne.org/PlanCheyenne2014FINAL/PlanCheyenneCityVersionApril2014FinalClean.pdf>

JUSTIFICATIONS:

We believe an enclosed/outdoor recreational storage unit complex is needed in Cheyenne, especially in the northern area of Cheyenne due to the growth of single-family homes and absence of recreational storage options. There are minimal recreational storage facilities in Cheyenne, and to date, none offer completely enclosed storage. Our proposal provides a place to store all types of recreational vehicles in a secure location. Based on our research of similar facilities in Southern Wyoming and Northern Colorado, the need for recreational storage options is high.

Under Section 4-2-112, iii, we feel our project will benefit others as follows:

- a. Taking into consideration the frequent hailstorms we experience in Cheyenne and minimal covered or enclosed storage options; an enclosed recreational storage facility is needed to protect individual's valuable assets. We feel we are meeting the PUD provisions of an outstanding public amenities

- b. Subdivision developments such as Saddle Ridge, Thomas Heights, Dakota Crossing, Bison Run, The Point, Sweet Grass, and Whitney Ranch all have covenants restricting trailers and motor home parking. We offer a place to store trailers, recreational vehicles, motorhomes, and boats so they are not blocking access to parking or blocking the view of vehicles.
- c. Hours of operation would be 24/7 with keypad access in a secure gated facility, with only one entrance in and out of the storage facility. Additionally, the entrance/exit will be located off Hynds Blvd to eliminate any disruptions to the local neighborhood.
- d. Traffic: We do not anticipate substantial impact of traffic on Hynds Blvd
- e. We have personally spoken with Stanley and Corine Rognon, Brian Aragon and Robert and Patricia Gentry who own the adjacent properties and they fully support this project.

Pertinent Regulations

Section 1-2-103 (b) of the Laramie County Land Use Regulations specifies that in order to recommend approval of this zone change, the Planning Commission must find at least one of the following:

- i. That the zoning district maps, or regulations are consistent with plans and policies of Laramie County; or
- ii. That the original zoning classification given to the property was inappropriate or improper; or
- iii. That there have been changes of an economic, physical or social nature within the area involved which altered the basic character of such area, and that the amendment will not detrimentally affect the area involved.

Under Section 4-2-112, of the Laramie County Land Use Regulations, the PUD (Planned Unit Development) zoning district is intended to permit flexibility and creativity in site and building design and location, and prevent adverse impacts and protect public health, safety, and welfare. Design excellence or the provision of outstanding public amenities shall be considered when adopting a (PUD). A PUD may be appropriate when at least one of the following is incorporated:

- i. Development of compatible land uses that provides private and common spaces for recreation, circulation, or open space.
- ii. Conservation of natural features or development of desirable amenities.
- iii. Creation of areas for mixed uses not ordinarily permitted together in other districts that are to the benefit to the development and that are so designed as to prevent negative impacts to the surrounding areas. Industrial uses may be developed with other uses when negative impacts are proven to be mitigated.

- iv. Creation of large areas for a wide variety of commercial or industrial uses such as shopping centers and their associated developments so that these uses can benefit from combined planning and standards.

As the applicants of this request, we are claiming the *third* criteria for justification of the change in zone district. The applicants would also like to request a waiver, at this time, for a traffic study and for a drainage plan until the zoning is approved.
