RE: Contract with Wyoming Department of Family Services

Enclosed for your signature is the original contract for TANF/CPI. I have enclosed the contract including any and all attachments.

After you have executed the contract, please return the original contract with signatures in the enclosed self-addressed envelope. Once the contract has been fully executed, a copy of the contract in its entirety will be forwarded to you for your files.

Should you have any questions or concerns regarding the contract's contents, please contact Corrine Livers, the contract manager at (307)754-2245, ext. 23 or via e-mail at corrine.livers@wyo.gov.

Any other questions you may have, do not hesitate to contact the undersigned at (307)777-5846 or via e-mail at annette.jones@wyo.gov.

Thank you for your anticipated cooperation in this matter.

Sincerely,

Annette Jones, SNAP/TANF Executive Assistant

CL/aj

Enclosure: as stated

CONTRACT BETWEEN WYOMING DEPARTMENT OF FAMILY SERVICES AND LARAMIE COUNTY COMMISSIONERS

- 1. Parties. The parties to this Contract are Wyoming Department of Family Services (Agency), whose address is: 2300 Capitol Avenue, Third Floor, Hathaway Building, Cheyenne, Wyoming 82002, and Laramie County Commissioners (Contractor), whose address is: PO Box 608, Cheyenne, WY 82003.
- 2. Purpose of Contract. The purpose of this Contract is to set forth the terms and conditions by which the Contractor shall operate the Temporary Assistance For Needy Families Community Partnership Initiative (TANF/CPI), a community plan which will provide a continuum of services to Laramie County families as outlined in Attachment A, attached and incorporated herein by reference.
- 3. <u>Term of Contract and Required Approvals</u>. This Contract is effective when all parties have executed it and all required approvals have been granted (Effective Date). The term of the Contract is from October 1, 2016 through September 30, 2017. All services shall be completed during this term.
 - By law, contracts for professional or other services must be approved as to form by the Attorney General and approved by A&I Procurement, Wyo. Stat. § 9-1-403(b)(v), and all contracts for services costing over one thousand, five hundred dollars (\$1,500.00) must be approved by the Governor or his designee, Wyo. Stat. § 9-2-1016(b)(iv).
- 4. Payment. The Agency agrees to pay the Contractor for the services described in Section 5 below. Total payment under this Contract shall not exceed Ninety-Four Thousand Seventy-Two Dollars (\$94,072.00). Payment shall be made quarterly after receipt of the required invoice and performance report. Payment shall be made upon submission of invoice pursuant to Wyo. Stat. § 16-6-602. No payment shall be made for work performed before the Effective Date of this Contract. Contractor shall submit invoices in sufficient detail to ensure that payments may be made in conformance with this Contract. Should the Contractor fail to perform in a manner consistent with the terms and conditions set forth in this Contract, payment under this Contract may be withheld until such time as the Contractor performs its duties and responsibilities to the satisfaction of Agency. The federal source of funding is Temporary Assistance for Needy Families (TANF), CFDA #93.558.
- 5. **Responsibilities of Contractor.** The Contractor agrees to:
 - A. Carry out the program described in Attachment A;
 - **B.** Enhance sustainability beyond the funding period;
 - C. Determine TANF eligibility for families participating in the program. A TANF Eligibility Intake Form shall be completed for each family being billed under this Contract;

- **D.** Bill the Agency for funding quarterly. The Contractor shall only bill for services provided to TANF eligible families. The quarterly invoice in Attachment B, attached and incorporated herein by reference, shall be used when submitting quarterly invoices;
- E. Provide quarterly program performance reports. Contractor shall validate all outcomes utilizing quantitative and qualitative data. The report in Attachment B shall be used for each quarterly report;
- F. Provide reporting that is sufficient to provide an audit trail for state or federal auditors to determine accuracy of direct and indirect costs. Invoices and reports shall be submitted within thirty (30) days following the end of the quarter;
- G. Submit the final invoice to the Agency no later than thirty (30) days after the term of the Contract;
- H. Submit the Year End Report summarizing the entire year no later than thirty (30) days after the term of the Contract;
- I. Not use funds to purchase non-tangible assets or to purchase or lease equipment.

 Leased equipment includes the rental of equipment for any period of time;
- J. Not use funds to provide cash or check(s) payable directly to the individual(s) served by the program; and
- **K.** Obtain prior approval from the Agency for all budget changes which deviate from the submitted budget (Attachment A).

6. Responsibilities of Agency. The Agency agrees to:

- A. Pay Contractor in accordance with Section 4 above;
- **B.** Instruct Contractor on eligibility for TANF funding;
- C. Monitor quarterly invoices and performance reports for accuracy and to ensure they meet the requirements of TANF and this Contract; and
- **D.** Monitor Contractor's efforts in securing other funding to ensure the program is sustainable after the funding period.

7. Special Provisions.

- A. Assumption of Risk. The Contractor shall assume the risk of any loss of state or federal funding either administrative or program dollars, due to the Contractor's failure to comply with state or federal requirements. The Agency shall notify the Contractor of any state or federal determination of noncompliance.
- B. Environmental Policy Acts. Contractor agrees all activities under this Contract

- will comply with the Clean Air Act, the Clean Water Act, the National Environmental Policy Act, and other related provisions of federal environmental protection laws, rules or regulations.
- C. Human Trafficking: As required by 22 U.S.C. § 7104(g) and 2 CFR Part 175, this Contract may be terminated without penalty if a private entity that receives funds under this Contract:
 - (i) Engages in severe forms of trafficking in persons during the period of time that the award is in effect;
 - (ii) Procures a commercial sex act during the period of time that the award is in effect; or
 - (iii) Uses forced labor in the performance of the award or subawards under the award.
- D. Kickbacks. Contractor certifies and warrants that no gratuities, kickbacks, or contingency fees were paid in connection with this Contract, nor were any fees, commissions, gifts, or other considerations made contingent upon the award of this Contract. If Contractor breaches or violates this warranty, Agency may, at its discretion, terminate this Contract without liability to Agency, or deduct from the agreed upon price or consideration, or otherwise recover, the full amount of any commission, percentage, brokerage, or contingency fee.
- E. Limitations on Lobbying Activities. By signing this Contract, Contractor certifies and agrees that, in accordance with P.L. 101-121, payments made from a federal grant shall not be utilized by Contractor or its subcontractors in connection with lobbying member(s) of Congress, or any federal agency in connection with the award of a federal grant, contract, cooperative agreement, or loan.
- F. Monitoring Activities. Agency shall have the right to monitor all activities related to this Contract that are performed by Contractor or its subcontractors. This shall include, but not be limited to, the right to make site inspections at any time and with reasonable notice; to bring experts and consultants on site to examine or evaluate completed work or work in progress; to examine the books, ledgers, documents, papers, and records pertinent to this Contract; and, to observe personnel in every phase of performance of the related work.
- **G.** Nondiscrimination. The Contractor shall comply with the Civil Rights Act of 1964, the Wyoming Fair Employment Practices Act (Wyo. Stat. § 27-9-105, et seq.), the Americans With Disabilities Act (ADA), 42 U.S.C. § 12101, et seq., and the Age Discrimination Act of 1975 and/or any properly promulgated rules and regulations thereto and shall not discriminate against any individual on the grounds of age, sex, color, race, religion, national origin, or disability in connection with the performance under this Contract.

- H. No Finder's Fees: No finder's fee, employment agency fee, or other such fee related to the procurement of this Contract, shall be paid by either party.
- I. Publicity. Any publicity given to the program or services provided herein, including, but not limited to, notices, information, pamphlets, press releases, research, reports, signs, and similar public notices prepared by or for Contractor and related to the services and work to be performed under this Contract, shall identify the Agency as the sponsoring agency and shall not be released without prior written approval of Agency.
- J. Suspension and Debarment. By signing this Contract, Contractor certifies that neither it nor its principals/agents are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction or from receiving federal financial or nonfinancial assistance, nor are any of the participants involved in the execution of this Contract suspended, debarred, or voluntarily excluded by any federal department or agency in accordance with Executive Order 12549 (Debarment and Suspension), 44 CFR Part 17, or 2 CFR Part 180, or are on the debarred, or otherwise ineligible, vendors lists maintained by the federal government. Further, Contractor agrees to notify Agency by certified mail should it or any of its principals/agents become ineligible for payment, debarred, suspended, or voluntarily excluded from receiving federal funds during the term of this Contract.
- K. Administration of Federal Funds. Subrecipient agrees its use of the funds awarded herein is subject to the Uniform Administrative Requirements of 2 C.F.R. Part 200 et seq., and/or additional requirements set forth by the federal funding agency; all applicable regulations published in the Code of Federal Regulations; and other program guidance as provided to it by Agency.
- L. Copyright License and Patent Rights. Subrecipient acknowledges that federal grantor, the State of Wyoming, and Agency reserve a royalty-free, nonexclusive, unlimited, and irrevocable license to reproduce, publish, or otherwise use, and to authorize others to use, for federal and state government purposes: (1) the copyright in any work developed under this Contract; and (2) any rights of copyright to which Subrecipient purchases ownership using funds awarded under this Contract. Subrecipient must consult with Agency regarding any patent rights that arise from, or are purchased with, funds awarded under this Contract.
- M. Federal Audit Requirements. Subrecipient agrees that if it expends an aggregate amount of seven hundred fifty thousand dollars (\$750,000.00) or more in federal funds during its fiscal year, it must undergo an organization-wide financial and compliance single audit. Subrecipient agrees to comply with the audit requirements of the U.S. General Accounting Office Government Auditing Standards and Audit Requirements of 2 C.F.R. Part 200, Subpart F. If findings are made which cover any part of this Grant, Subrecipient shall provide one (1) copy of the audit report to Agency and require the release of the audit report by its auditor be held until adjusting entries are disclosed and made to Agency's records.

- N. Non-Supplanting Certification. Subrecipient hereby affirms that federal grant funds shall be used to supplement existing funds, and shall not replace (supplant) funds that have been appropriated for the same purpose. Subrecipient should be able to document that any reduction in non-federal resources occurred for reasons other than the receipt or expected receipt of federal funds under this Contract.
- O. Program Income. Subrecipient shall not deposit grant funds in an interest bearing account without prior approval of Agency. Any income attributable to the grant funds distributed under this Contract must be used to increase the scope of the program or returned to Agency.

8. General Provisions.

- A. Amendments. Any changes, modifications, revisions, or amendments to this Contract which are mutually agreed upon by the parties to this Contract shall be incorporated by written instrument, executed and signed by all parties to this Contract.
- B. Applicable Law/Venue. The construction, interpretation, and enforcement of this Contract shall be governed by the laws of the State of Wyoming. The Courts of the State of Wyoming shall have jurisdiction over this Contract and the parties, and the venue shall be the First Judicial District, Laramie County, Wyoming.
- C. Assignment/Contract Not Used as Collateral. Neither party shall assign or otherwise transfer any of the rights or delegate any of the duties set out in this Contract without the prior written consent of the other party. The Contractor shall not use this Contract, or any portion thereof for collateral for any financial obligation without the prior written permission of the Agency.
- **D.** Audit/Access to Records. The Agency and its representatives shall have access to any books, documents, papers, electronic data and records of the Contractor which are pertinent to this Contract.
- E. Availability of Funds. Each payment obligation of the Agency is conditioned upon the availability of government funds which are appropriated or allocated for the payment of this obligation. If funds are not allocated and available for continued performance of the Contract, the Contract may be terminated by the Agency at the end of the period for which the funds are available. The Agency shall notify the Contractor at the earliest possible time of the services which will or may be affected by a shortage of funds. No penalty shall accrue to the Agency in the event this provision is exercised, and the Agency shall not be obligated or liable for any future payments due or for any damages as a result of termination under this section. This provision shall not be construed to permit the Agency to terminate this Contract to acquire similar services from another party.

- F. Award of Related Contracts. The Agency may award supplemental or successor contracts for work related to this Contract. The Contractor shall cooperate fully with other contractors and the Agency in all such cases.
- G. Certificate of Good Standing. Contractor shall provide to Agency a Certificate of Good Standing verifying compliance with the unemployment insurance and workers' compensation programs before and during performing work under this Contract, if applicable.
- H. Compliance with Laws. The Contractor shall keep informed of and comply with all applicable federal, state, and local laws and regulations, and all federal grant requirements and executive orders in the performance of this Contract.
- I. Confidentiality of Information. All documents, data compilations, reports, computer programs, photographs, data and other work provided to or produced by the Contractor in the performance of this Contract shall be kept confidential by the Contractor unless written permission is granted by the Agency for its release. If and when Contractor receives a request for information subject to this Contract, Contractor shall notify Agency within ten (10) days of such request and not release such information to a third party unless directed to do so by Agency.
- **J.** Entirety of Contract. This Contract, consisting of ten (10) pages, Attachment A [Program Description], consisting of forty-three (43) pages, and Attachment B [Quarterly Expenditure and Program Report], consisting of nine (9) pages, represent(s) the entire and integrated Contract between the parties and supersede(s) all prior negotiations, representations, and agreements, whether written or oral.
- K. Ethics. Contractor shall keep informed of and comply with the Wyoming Ethics and Disclosure Act (Wyo. Stat. § 9-13-101, et seq.) and any and all ethical standards governing Contractor's profession.
- L. Extensions/Renewals. Nothing in this Contract shall be interpreted or deemed to create an expectation that this Contract will be extended beyond the term described herein.
- M. Force Majeure. Neither party shall be liable for failure to perform under this Contract if such failure to perform arises out of causes beyond the control and without the fault or negligence of the nonperforming party. Such causes may include, but are not limited to, acts of God or the public enemy, fires, floods, epidemics, quarantine restrictions, freight embargoes, and unusually severe weather. This provision shall become effective only if the party failing to perform immediately notifies the other party of the extent and nature of the problem, limits delay in performance to that required by the event, and takes all reasonable steps to minimize delays. This provision shall not be effective unless the failure to perform is beyond the control and without the fault or negligence of the nonperforming party.

- N. Indemnification. Each part to this Contract shall be responsible for any liability arising from its own conduct. Neither party agrees to insure or indemnify the other.
- Independent Contractor. The Contractor shall function as an independent 0. contractor for the purposes of this Contract and shall not be considered an employee of the State of Wyoming for any purpose. Consistent with the express terms of this Contract, the Contractor shall be free from control or direction over the details of the performance of services under this Contract. The Contractor shall assume sole responsibility for any debts or liabilities that may be incurred by the Contractor in fulfilling the terms of this Contract and shall be solely responsible for the payment of all federal, state, and local taxes which may accrue because of this Contract. Nothing in this Contract shall be interpreted as authorizing the Contractor or its agents and/or employees to act as an agent or representative for or on behalf of the State of Wyoming or the Agency or to incur any obligation of any kind on the behalf of the State of Wyoming or the Agency. The Contractor agrees that no health/hospitalization benefits, workers' compensation, unemployment insurance and/or similar benefits available to State of Wyoming employees will inure to the benefit of the Contractor or the Contractor's agents and/or employees as a result of this Contract.
- P. Notices. All notices arising out of, or from, the provisions of this Contract shall be in writing either by regular mail or delivery in person at the address(es) provided under this Contract.
- Q. Notice and Approval of Proposed Sale or Transfer. The Contractor shall provide the Agency with the earliest possible advance notice of any proposed sale or transfer or any proposed merger or consolidation of the assets of the Contractor. Such notice shall be provided in accordance with the notices provision of this Contract. If the Agency determines that the proposed merger, consolidation, sale, or transfer of assets is not consistent with the continued satisfactory performance of the Contractor's obligations under this Contract, then the Agency may, at its option, terminate or renegotiate the Contract.
- R. Ownership and Destruction of Documents/Information. Agency owns all documents, data compilations, reports, computer programs, photographs, data and other work provided to or produced by the Contractor in the performance of this Contract. Upon termination of services, for any reason, Contractor agrees to return all such original and derivative information/documents to the Agency in a useable format. In the case of electronic transmission, such transmission shall be secured. The return of information by any other means shall be by a parcel service that utilizes tracking numbers. Upon Agency's verified receipt of such information, Contractor agrees to physically and electronically destroy any residual Agency-owned data, regardless of format, and any other storage media or areas containing such information. Contractor agrees to provide written notice to Agency confirming the destruction of any such residual Agency-owned data.

- S. Patent or Copyright Protection. The Contractor recognizes that certain proprietary matters or techniques may be subject to patent, trademark, copyright, license, or other similar restrictions, and warrants that no work performed by the Contractor or its subcontractors will violate any such restriction. The Contractor shall defend and indemnify the Agency for any violation or alleged violation of such patent, trademark, copyright, license, or other restrictions.
- T. Prior Approval. This Contract shall not be binding upon either party, no services shall be performed under the terms of this Contract, and the Wyoming State Auditor shall not draw warrants for payment on this Contract until this Contract has been reduced to writing, approved as to form by the Office of the Attorney General, filed with and approved by A&I Procurement, and approved by the Governor of the State of Wyoming, or his designee, if required by Wyo. Stat. § 9-2-1016(b)(iv).
- U. **Proof of Insurance.** Contractor is protected by the Wyoming Governmental Claims Act and is a member of a governmental insurance pool, to wit: the Wyoming Association of Risk Managers (WARM), Wyo. Stat. § 1-39-101, et. seq. and shall provide a letter verifying its participation in the WARM to the Agency.
- V. Severability. Should any portion of this Contract be judicially determined to be illegal or unenforceable, the remainder of the Contract shall continue in full force and effect, and the parties may renegotiate the terms affected by the severance.
- W. Sovereign Immunity. The State of Wyoming and Agency do not waive sovereign immunity by entering into this Contract and specifically retain all immunities and defenses available to them as sovereigns pursuant to Wyo. Stat. § 1-39-104(a) and all other applicable law. The parties intend and agree that the Contractor does not waive governmental immunity by entering into this Contract, and specifically retains immunity and all defenses available to them as a local governmental entity pursuant to Wyo. Stat. § 1-39-104 et seq., and all other state law. Designations of venue, choice of law, enforcement actions, and similar provisions should not be construed as a waiver of sovereign or governmental immunity. The parties agree that any ambiguity in this Contract shall not be strictly construed, either against or for either party, except that any ambiguity as to sovereign or governmental immunity shall be construed in favor of sovereign or governmental immunity.
- X. Taxes. The Contractor shall pay all taxes and other such amounts required by federal, state, and local law, including but not limited to, federal and social security taxes, workers' compensation, unemployment insurance, and sales taxes.
- Y. Termination of Contract. This Contract may be terminated, without cause, by the Agency upon thirty (30) days written notice. This Contract may be terminated by the Agency immediately for cause if the Contractor fails to perform in accordance with the terms of this Contract.

- Z. Third Party Beneficiary Rights. The parties do not intend to create in any other individual or entity the status of third party beneficiary, and this Contract shall not be construed so as to create such status. The rights, duties, and obligations contained in this Contract shall operate only between the parties to this Contract and shall inure solely to the benefit of the parties to this Contract. The provisions of this Contract are intended only to assist the parties in determining and performing their obligations under this Contract.
- **AA.** Time is of the Essence. Time is of the essence in all provisions of this Contract.
- BB. Titles Not Controlling. Titles of sections and subsections are for reference only and shall not be used to construe the language in this Contract.
- CC. Waiver. The waiver of any breach of any term or condition in this Contract shall not be deemed a waiver of any prior or subsequent breach. Failure to object to a breach shall not constitute a waiver.

THE REMAINDER OF THIS PAGE WAS INTENTIONALLY LEFT BLANK.

9. <u>Signatures</u>. The parties to this Contract, either personally or through their duly authorized representatives, have executed this Contract on the dates set out below, and certify that they have read, understood, and agreed to the terms and conditions of this Contract.

This Contract is not binding on either party until approved by A&I Procurement and the Governor of the State of Wyoming or his designee, if required by Wyo. Stat. § 9-2-1016(b)(iv).

The effective date of this Contract is the date of the signature last affixed to this page.

Boys & Girls Club of Cheyenne

Individual Organization Application Laramie County, Wyoming

State of Wyoming

Department of Family Services

Temporary Assistance For Needy Families Community Partnership Initiative Grant Application

Community name: Cheyenne, Wyoming

County(s)/Tribe: Laramie County, Wyoming

Name, organization, address, phone, fax, email for the **Primary Contact**:

Name: Rolinda Sample

Organization: Boys & Girls Club of Cheyenne Wyoming Inc. Address: 515 West Jefferson Road, Cheyenne Wyoming 82007

Name, address, phone, fax, email for the person who will be monitoring the program:

Name: Hannah Lensch

Address: 515 West Jefferson Road, Cheyenne Wyoming 82007

Program name: The Boys & Girls Club Experience

TANF purpose(s) addressed in project (list the purposes):

The Boys & Girls Club of Cheyenne meets all four TANF purposes.

- Provide assistance to needy families so that children may be cared for in their own homes or in the homes of relatives;
- End the dependence of needy parents on government benefits by promoting job preparation, work and marriage;
- Prevent and reduce out-of-wedlock pregnancies and establishing annual numerical goals for preventing and reducing the incidence of these pregnancies; and
- Encourage the formation and maintenance of two (2) parent families.

Program description: Boys & Girls Club's mission is dedicated completely to youth ages 6 to 18 and provides facility-based youth development with daily mentoring.

The Boys & Girls Club of Cheyenne will offer low-income children an opportunity to attend and participate in Boys & Girls Club activities after school and during the summer. Attendance in quality after school and summer programs with mentors is typically a disparity for low-income children.

Because of the disparity in our target population, Boys & Girls Club must keep our fees low. Club is open to youth every day from 2 until 7 p.m. on regular school days, with extended hours for no-school and early release days. Transportation is provided from 26 schools to the Club.

Local Cost Comparison:

Program	After-school Cost	2016 Summer Cost
Boys & Girls Club	\$10 per year	\$1,055 (11 weeks)
City's Latchkey	\$185 per month (only through 6 th grade)	\$1,100
YMCA	\$200-\$275 per month	\$1,350 to \$1,650

	(only through 6th grade)	
St. Mary's School		\$1,350 (ages 3-14)

Despite the Club's low cost, the fees can be prohibitive to attendance. The Wyoming Department of Family Services will subsidize these costs for qualifying families, but that assistance is unavailable for children over 12 years old. We feel that kids over 12 are especially in need of supervision and guidance to prevent unwed pregnancies, encourage two-parent families and support parents working toward or maintaining self-sufficiency and harmony at home. Besides the Club, there is a lack of organized, supervised and engaging activities for teens and pre-teens in Cheyenne.

To monitor the families' needs, they complete TANF Eligibility Form. From January through March 2016, we already had \$91,760 in scholarship requests, which is a 14.1% increase in the amount between 2015 and 2016. For 2016, there were 22 requests for busing scholarships, 40 requests for no-school days, 29 requests for the \$10 annual membership fee and 82 requests for the summer program. We had 14 total applications for kids who are 12 years old or older and are no longer eligible for state childcare assistance. These requests are primarily from low- to moderate-income working families. Since opening our new facility in February 2015, we have taken kids from our waiting list and offered registrations on a weekly basis resulting in a 55% increase in attendance between 2014 and 2015 year end.

Yes		No	[X] If so, ho	w is it diffe	erent?	-					•

Area(s) served: Laramie County, Wyoming

Population served:

Youth ages 6 to 18 who are living at or below the TANF Federal Poverty Level based on annual self-reports. Children between 6 and 18 years old may become a member of the Club. We have traditionally served lower income families; 55% (down from 57% in 2014) of our members qualified to receive free or reduced-price lunches at school. Also, 48% (down from 52% in 2014) live in single-parent homes. Low- and moderate-income families – especially those with single parents or kids over 12 years old – often have few or no options for supervision during non-school hours.

Beginning and end date of program: October 1, 2016 – September 30, 2017

Projected number of TANF eligible individuals served by this program:

Approximately 60 youth would receive the Club services, depending on their need. For example, some children may need transportation after school, others may need summer program, and some may need both after school and summer programs offered at the Club. There are approximately 3,000 youth who attend schools within one mile of our new facility in south Cheyenne. We anticipate an on-going increase in the number of families interested in our program, as indicated by a 55% increase in attendance

between 2014 and 2015. The Boys & Girls Club is thankful for the new facility which has increased capacity for more children.

Provide an explanation on how income information will be gathered to determine TANF eligibility for the low-income families being served in the program. Applicants shall use a TANF Eligibility Intake Form. A copy of the TANF Eligibility Intake Form shall be attached to this proposal.

The Boys & Girls Club of Cheyenne uses Vision Membership Tracking Software, which was designed for Boys & Girls Clubs. This software allows the Club to track demographics about every Club member including parent-reported household income, (more than 54 percent of Club members who live in Cheyenne attend a Title I school in Cheyenne) age, school attended, grade level, promotion to the next grade and frequency of attendance. In 2015, the Cheyenne Club had 43% of members who attended 52 times per year and 19% of members who attended 104 times per year. Each participant's performance on the pre- and post-tests for programs, attendance and graduation from each session will be tracked using this database.

For TANF eligibility purposes, we rely on self-reporting of income and need from parents/guardians as indicated on the Request of Membership Form and the TANF Eligibility Intake Form.

Program availability: when is the program offered (e.g. time of day, how often, time of year)? We are open year-round. On regular school days, we are open to youth from 2 until 7 p.m. On early release days we are open to youth from 11 a.m. to 6 p.m. On noschool days and during the summer, we are open to youth from 7:30 a.m. to 6 p.m. In April 2016, the Club offered its first Saturday event, an Art Workshop. Saturday and late night events are now options for our Club to serve youth with extended hours.

Intent of the program: Through extensive research, Boys & Girls Clubs of America has identified certain elements that allow Clubs to ensure positive developmental experiences for its members. We have learned that the level of impact a Club's program has on young people depends on how frequently and how long members participate, as well as how well the Club implements these five key elements based on our annual quality improvement program and assessment:

- A safe positive environment. Club staff, facilities, activities, and age-appropriate settings create stability, consistency and a sense of physical and emotional safety for members. The Club provides structure and clearly defined acceptable behaviors.
- Fun. Clubs are fun for members. Members develop a strong sense of belonging through connections they establish with staff, volunteers and peers.
- Supportive relationships. Club youth develop meaningful relationships with peers and mentors. Staff members actively cultivate such relationships to ensure that every member feels connected to one or more adults and peers. Staff members

demonstrate warmth, caring, appreciation, acceptance and proper guidance in their interactions with members.

- Opportunities and expectations. Club youth acquire physical, social, technological, artistic and life skills. Clubs encourage members to develop moral character and behave ethically. Staff members establish and reinforce high expectations and help young people do well in school and pursue a postsecondary education.
- Recognition. Clubs recognize and affirm young people's self-worth and accomplishments. Staff members encourage youth and provide positive reinforcement as they make improvements and experience successes. The Club showcases young people's achievements.

The Boys & Girls Club of Cheyenne has worked diligently at providing a quality Club experience that incorporates the key elements listed above. The Cheyenne Club's scores in the Boys & Girls Clubs of America Formula for Impact assessment have continued to increase since 2009. The Club participates in an annual survey of members which allows our club responses to be compared to clubs across the country.

The Club has specifically improved its programming for teens, made evident by Cheyenne youth being named the statewide Wyoming Youth of the Year winners four times since 2010. Between 2014 and 2015, the Club saw a 47% increase in the number of teens served.

The Club is so much more than supervision, a tutoring program or even just a fun alternative to being home alone after school. Our focus is on the future, when the kids we see today will be the leaders of the community. Not only is the Club providing what kids and families need right now, we are guiding and molding citizens that will hold steady jobs, avoid drugs and alcohol, wait until adulthood to become parents, vote, give back to and lead Laramie County.

The Club is working to support youth by providing academic support and guidance toward making healthy choices and developing strong leadership and character traits. It is addressing all four of the TANF purposes:

- By keeping our membership fees low, we are helping family budgets stretch and allowing parents the freedom to work or attend school. Children in financially stable homes are more likely to be raised at home.
- Our program supports working parents by staying open until 7 p.m. and giving them peace of mind while at work. It is also helping to guide the next generation of employees and parents toward self-sufficiency with programs like financial literacy and career development.
- By providing mentorship and engaging activities, the Club is helping to prevent out-of-wedlock pregnancies and teaching youth about healthy relationships.

- The Club helps to take some of the pressure off of parents financially and by providing homework help, mentoring, etc., which can strengthen relationships at home. We are also helping our members develop healthy and realistic attitudes about their current and future relationships.

Goals of the program: Our overall goal is to equip all of our members with the tools and skills they need to graduate high school on time and with a plan for the future. That means supporting their academic success, guiding them toward making healthy choices and developing their character and leadership skills.

Specifically for this request, our goals are to identify and provide 60 TANF-eligible youth opportunities to attend the Club after school and/or during the summer especially those who would otherwise be left unsupervised or caring for younger siblings. By attending the Club, the kids will participate in programming to help them achieve academic success, develop their financial literacy, prepare for their career, and understand more about themselves and supportive relationships.

List objectives that will be implemented to accomplish the program goals:

- Promote the Club as an opportunity to TANF-eligible youth through the school district.
- Use TANF Eligibility Intake Forms to identify youth in need
- Use media to promote Club services for TANF-eligible youth.
- Youth participate at least 52 times per year.
- Youth participate in age-appropriate programs which fit TANF goals.
- Youth achieve academic success

List performance measures on each goal that will be used to evaluate the program's success: Boys & Girls Club will recruit TANF-eligible participants through media, parents, and the school district. Age-appropriate classes will be taught to the participants so they have a better understanding of supportive relationships, how to make healthy life choices, and how to plan for their future. Academic success will be a focus which will include homework assistance and participation in high yield learning activities.

- Number and types of contacts with school personnel throughout the district, ask parents how they heard about the Club.
- Provide scholarship forms and analyze amount and types of need.
- Number and types of media contacts, ask parents how they heard about the Club.
- Number of days attended through membership tracking software.
- Number of times and types of programs attended, pre- and post-tests as available per program area.
- Report cards and participation in summer learning loss activities

Quantify expected outcomes for each goal:

Boys & Girls Club of Cheyenne will identify TANF-eligible youth in need of Boys & Girls Club services. It is expected that at least 80TANF eligible youth will be identified to fill the 60 target youth.

Provide Club experience to 60 TANF-eligible youth. It is expected that the 60 TANF-eligible youth will attend the club at least 52 times.

Describe data collection methods to be used and how data will be provided to validate outcomes:

The Boys & Girls Club of Cheyenne uses Vision Membership Tracking Software, which was designed for Boys & Girls Clubs. This software allows the Club to track demographics about every Club member including parent-reported household income, (more than 54 percent of Club members who live in Cheyenne attend a Title I school in Cheyenne) age, school attended, grade level, promotion to the next grade and frequency of attendance. In 2015, the Cheyenne Club had 43% of members who attended 52 times per year and 19% of members who attended 104 times per year. Each participant's performance on the pre- and post-tests for programs, attendance and graduation from each session will be tracked using this database.

For TANF eligibility purposes, we rely on self-reporting of income, household size and need from parents/guardians.

Provide an explanation of the results the program expects to achieve, how data will be collected, and how quality assurance will be conducted to validate measurements: We expect the outcome to have 60 TANF-eligible children receiving services from the Club during the school year and/or the summer program. They will attend at least 52 times during the fiscal year and participate in programming which aligns with TANF goals. Attendance data will be collected through our Vision Membership Tracking Software. We will do pre- and post-tests as available for our programs to assess their effectiveness. We will also be participating in the National Youth Outcomes Initiative, which will allow us to compare our results and outcomes to Clubs across the country.

Resource gap(s) addressed by program: The prevalence of risk behaviors such as substance abuse and sexual activity among our community's youth point to a need for effective programming to provide knowledge, skills and peer-network resources to reduce these behaviors beyond those provided through the public school system.

Kidscount data found that, in 2008, 38 percent of Laramie County 10th graders reported that they used alcohol on one or more occasions during the past 30 days. In the same year, 17 percent of 10th graders reported having used marijuana at least once in the last 30 days. In 2011, 305 Laramie County students did not graduate high school and the Wyoming teen suicide rate continues to be more than double the national rate. There were 220 divorces involving children in Laramie County in 2014. Pregnancy among 18 and 19 year olds is 20% greater in Wyoming than the national rate.

Nationally, adolescents ages 15-24 account for nearly half of the 20 million new cases of STD's each year. Today, four in 10 sexually active teen girls have had an STD that can cause infertility and even death.

The 2011-2015 MCH Needs Assessment stated that the overall percent of all middle school students who reported ever having sexual intercourse in 2007 was 14.3%. Almost 50% of non-Hispanic white middle school boys reported having sex that year. Also, the overall percent of Wyoming students who ever had sex in 2007 was 47.2%. In Wyoming, two-thirds of Hispanic/Latino boys and two-thirds of Hispanic/Latino girls reported ever having sexual intercourse compared to about 45% each for white boys and white girls.

The Boys & Girls Club is working to prevent risky behavior and promote work ethic, good character and healthy choices among local youth now. The Club is also working to support families, which reduces abuse and neglect and allows parents to work toward or maintain self-sufficiency. We are looking toward the future and guiding our members toward responsible choices and healthy relationships as adults.

The domestic violence rate (incidents per 1000 population) has increased since 2006.1

Boys & Girls Club's focus on academic success will help youth have a brighter future.

On-time graduation rate in Laramie County School District 1 for school year 2013-2014 was only 73.9% for all students. There are disparities based on gender, ethnicity, English Language Learners (ELL), Homeless, those on Individual Education Plan (IEP) and those eligible for free/reduced lunches with their graduation rate:

Males = 66.31% American Indians = 60% African Americans = 62.79% Hispanic = 61.75% Two or More Races = 66.67% ELL = 38.46% Homeless = 33.33% IEP = 50.34% Free/reduced Lunches = 55.89%

Description of how community wide collaboration in planning and implementation occurred: The Boys & Girls Club of Cheyenne collaborates with an array of organizations to implement its programming. Boys & Girls Club has collaborated in the development and support of programming with Boys & Girls Clubs of America through program development and partnerships with the United States Department of Justice, Office of Juvenile Justice and Delinquency Prevention. At the state level and local level, the Club collaborates with the Wyoming Department of Family Services, Department of

²The Annie E. Casey Foundation, KIDS COUNT Data Center, www.kidscount.org/datacenter

Health, and a variety of other groups working to improve the lives of youth. We have worked with Laramie County School District #1 to provide transportation when possible as well as access to kids' report cards and teachers, with parental permission. Laramie County Library System is a resource we utilize, especially during summer months.

Additionally, we work closely with other local non-profits like the Foster Grandparents for volunteer mentors; CLIMB Wyoming for referrals and the Boy Scouts for outreach.

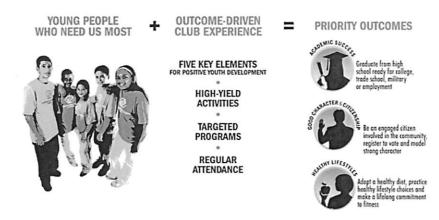

Community partners involved in the program implementation. List resources to be provided by each partner:

- Foster Grandparents volunteer mentors
- Department of Health pregnancy and STD prevention
- Boy Scouts Scouting activities for kids without the cost commitment
- LCSD#1 Referrals, transportation and access to report cards, with parental permission
- Laramie County Library access to library programs, books and bookmobile
- Laramie County Master Gardeners to teach Junior Master Gardener Program
- United Way program support
- Various businesses and individuals program support

Describe what research based programs and strategies will be utilized to make the program successful:

The Boys & Girls Clubs of America program has been making a difference in the lives of youth for more than 150 years. It has developed evidence-based and proven programs and practices such as Project Learn, Summer Brain Gain, SMART Leaders and SMART Girls. Project Learn is an evidence based program consisting of high-yield educational activities. Summer Brain Gain focuses on reducing summer learning loss. SMART Leaders and SMART Girls focus on resisting risky behaviors. Programs implemented are based on the Formula for Impact:

Describe how the program will be sustained by the community beyond the funding period: The Boys & Girls Club of Cheyenne employs a full-time development professional who oversees all aspects of fundraising including grant writing (private, state and federal,) fundraising events and cultivates individual donors. The board of directors is highly engaged in the development of the Club. These efforts help provide the facilities necessary to offer Boys & Girls Club programming.

Describe the cost-benefits of providing this program:

Teen childbearing costs U.S. taxpayers billions of dollars due to lost tax revenue, increased public assistance payments, and greater expenditures for public health care, foster care, and criminal justice services. [1],[2]

Teen childbearing cost Wyoming taxpayers \$23 million in 2008. Taxpayer costs associated with children born to teen mothers included \$4 million for public health care (Medicaid and CHIP); \$3 million for child welfare; and, for children who have reached adolescence or young adulthood, \$10 million for increased rates of incarceration and \$5 million in lost tax revenue due to decreased earnings and spending. Of the total teen childbearing costs to taxpayers in that year, 37 percent were federal costs and 63 percent were state and local costs.²

Ele Hoffman, S. D. (2008). Consequences of teen childbearing for mothers: Updated estimates of the consequences of teen childbearing for mothers. In S. D. Hoffman, & R. A. Maynard (Eds.), *Kids having kids: Economic costs and social consequences of teen pregnancy* (2nd ed., pp. 74-92). Washington, DC: Urban Institute Press.

² The National Campaign to Prevent Teen and Unplanned Pregnancy

According to the Wyoming Department of Family Services, the current cost to the state to house a child at the state Boys and Girls Schools in Worland and Sheridan is about \$218 to \$298 per day, per child. This equates to \$58,850 to \$84,460 (for nine-month stay for one youth).

 Cost savings of keeping one youth out of a drug and alcohol rehabilitation center = \$14,850 (Wyoming Department of Education, based on state paying for minor's treatment with an average stay of 90 days at \$165 per day average.)₂₀₁₄

The Boys & Girls Club program is cost-effective in terms of state government costs if it keeps one participant from a stay in the Boys or Girls School or it keeps three participants from undergoing drug and alcohol rehabilitation – or any combination of these costs and the reduction in the costs due to teen out-of-wedlock pregnancy.

For each \$1 invested in the Boys & Girls Club, there are \$9.60 of economic benefit returned to the individual and society according to a 2015 study at Michigan State University. This investment helps build stronger families and communities including increased earning power.

An Investment in Boys & Girls Clubs Goes a Long Way

What if there was a way you could turn \$1 into nearly \$10 worth of benefits for youth, families and communities?

A 2015 study by the Institute for Social Research and the School of Public Health at the University of Michigan found that for every...

Boys & Girls Clubs fill the gap between school and home, providing safe environments where kids have fun, participate in life-changing programs, and form supportive relationships with peers and caring adults.

Clubs spend \$1.4 billion annually on operating costs to provide programs that...

We all benefit from an investment in Boys & Girls Clubs!

Program name: CLIMB Wyoming

TANF purpose(s) addressed in project (list the purposes):

- Primary purpose: To end the dependence of needy parents on government benefits by promoting job preparation and work.
- Secondary purpose: To provide assistance to needy families so that children may be cared for in their own homes.

Program description: CLIMB Wyoming focuses on training and placing single mothers in careers that successfully support their families and move them toward self-sufficiency. The uniquely comprehensive CLIMB program model was developed in 1986 in Cheyenne. To meet Wyoming's workforce needs, the CLIMB programs help women enter a variety of occupations that include healthcare and medical office careers, truck driving, warehousing, office careers, construction and energy and more.

Each program delivers the following CLIMB program model phases:

Program Research and Planning: Program research and planning activities are conducted year-round, but become a strong focus for approximately two to four months prior to the comprehensive training start date. During program planning, CLIMB staff research and identify career opportunities in growing fields, then engage and survey businesses and industry groups within these growing fields. Based on the businesses' input, staff work with a community college or private training entity to develop a curriculum that trains for the occupation's required knowledge, skills and abilities. This research and planning phase ensures that staff will be able to place participants in long-term job opportunities during job placement and that job placements allow the participants to earn a wage that moves them toward self-sufficiency and offers them opportunities for long-term employment.

<u>Participant Recruitment</u>: Participant recruitment activities are also conducted year-round, but become more intense approximately two months prior to the comprehensive training start date, and after the research and planning activities for the program have been completed and requirements of the training and employment are known. CLIMB's unique participant recruitment approach is vital to connecting well-matched, qualified and ready-to-work individuals to high-quality jobs during job placement. This phase is also the first opportunity for CLIMB to

demonstrate to candidates how the CLIMB program is different from other programs that they may have encountered.

During recruitment, CLIMB program staff members work hard to locate low-income single mothers who are most in need. These mothers often feel they cannot successfully complete the program due to the personal challenges in their lives. Program staff members assist and coach candidates to overcome obstacles such as low self-esteem, childcare, transportation and housing so that they can participate. Each CLIMB program serves ten to eleven low-income single mothers who complete the program as a group that evolves into a strong peer support network which lasts well beyond the end of the program.

Comprehensive Training: Comprehensive training lasts approximately two to four months, depending on the job training curriculum. CLIMB's participants are strong women who can meet Wyoming's critical workforce needs. Comprehensive training develops the participants' strengths and builds upon them through extensive training in high-demand, high-growth occupations that lead to self-sufficient wages. CLIMB participants are guided through job training and also receive services that allow them to begin to address personal barriers to success. The comprehensive training phase includes industry specific training, work readiness training, life skills training, parenting skills training, mental health services (including both group and individual counseling provided by a Licensed Mental Health Provider) and advocacy services.

Job Placement: Job placement includes six to eight weeks of subsidized work experience followed by long-term placement. Staff members place participants into positions where they will be able to take what they learned during comprehensive training and transition it to on-the-job training, allowing them to build upon the skills they learned. Staff members work closely with local businesses to commit to the program and consider the participants for a work experience placement and long-term placement to help them and their families obtain self-sufficiency. Employers are reimbursed during the six to eight week work experience, and staff members work closely with each employer to ensure that the participants are meeting appropriate expectations and to offer additional support or training as needed.

Ongoing Support: Due to the comprehensive nature and intensity of the CLIMB program model, it is important that CLIMB prepares the participants to maintain the success they have gained. Life changes come slowly and staff members support participants in meeting challenges as they arise. Ongoing support has proven to be as important to the participants' long-term success as the participant recruitment process. To continue to support the participants, CLIMB staff members meet with graduates after they finish the program to sustain success in the workplace and family stability. Staff members and graduates meet as a group to discuss life challenges and possible solutions as well as continually review community resources.

In Laramie County, over 800 TANF eligible single mothers and over 1,600 children have been served by a CLIMB program. The participants demonstrate the following outcomes:

- 87% successfully graduated from the CLIMB program.
- 42% were employed when they entered the program; however 77% were employed two years after completing the program.
- Monthly wage income for employed clients increased from \$996 before the program to \$2,099 two years after program completion.

- 61% of clients utilized food stamps prior to entering the program; however, 37% utilized food stamps two years after completing the program
- The percentage of participants on public health care programs fell from 38% prior to entering the program to 14% two years after completing the program.

Is this program different than previous programs operated with TANF funds in the past? No If so, how is it different?	Yes
Area(s) served: Laramie County	
Population served: Low-income single mothers living at or below 185% of the Federal F Level.	overty
Beginning and end date of program: October 1, 2016 - September 30, 2017	

Projected number of TANF eligible individuals served by this program: 40 single mothers and 80 of their children

Provide an explanation on how income information will be gathered to determine TANF eligibility for the low-income families being served in the program. Applicants shall use a TANF Eligibility Intake Form. A copy of the TANF Eligibility Intake Form shall be attached to this proposal.

Since participants must be living below 185% of the federal poverty level in order to participate in CLIMB Wyoming programs, staff verify participant income. Total income is considered monthly gross wages, child support, unemployment, and any other cash benefits received. Staff use the following methods to verify participant income: 1) Food Stamp Verification through the local Department of Family Services case worker, copies of participant's paystubs, income verification form for participant from respective employers, prior year's tax returns, proof of child support payments received, Workers Compensation pay stubs, unemployment pay stubs and Social Security or Disability.

Program availability: when is the program offered (e.g. time of day, how often, time of year)? The Laramie County CLIMB program offers 4 training sessions per year, each lasting approximately 6 months from recruitment through end of final placements. The intensive training sessions are approximately 8 to 10 weeks long. The training days are full days that run approximately 8 am to 5 pm.

Intent of the program: The intent of every CLIMB Wyoming training program is to ensure that low-income single mothers receive the training, skills, and support necessary to reach economic self-sufficiency and to succeed long-term in all aspects of their lives.

Goals of the program: The foremost goal of every CLIMB Wyoming training program is to ensure that low-income single mothers receive the training, skills, and support necessary to reach economic self-sufficiency and to succeed long-term in all aspects of their lives.

List objectives that will be implemented to accomplish the program goals: The program objectives are that graduates are trained and placed in high quality jobs, increase their incomes to livable wages, reduce dependence on government benefits, and learn the skills needed for successful relationships at home and at work.

Using the outcome data collected from participants enrolled in the program, objectives to accomplish the goals will be measured using the following:

- Training completion.
- Increase of the employment rate for participants from pre- to post-program.
- Increase of the average monthly wage for participants from pre- to post-program.
- Decrease of the dependence on food stamps for participants from pre- to post-program.
- Decrease of the dependence on public healthcare for participants from pre- to post-program.

List performance measures on each goal that will be used to evaluate the program's success:

- 80% of participants who enter a program will successfully complete it. Historically, 87% of Laramie County CLIMB participants have completed the program.
- 75% of program graduates will be employed after program completion. Historically, 77% of Laramie County CLIMB participants have maintained employment two years post-program.
- The target wage post-program will be a wage that moves participants towards selfsufficiency based on the Wyoming Self Sufficiency Standard. Historically, monthly wage income for employed clients increased from \$996 before the program to \$2,099 two years after program completion.
- 50% of program graduates who enter the program utilizing food stamps will show a
 decrease in the dependence on food stamps. Historically in Laramie County, 61% of
 clients utilized food stamps prior to entering the program; however, 37% utilized food
 stamps two years after completing the program.
- 50% of program graduates who enter the program utilizing public healthcare will show a
 decrease in the dependence on public healthcare. Historically, the percentage of
 participants on public health care programs fell from 38% prior to entering the program
 to 14% two years after completing the program.

Quantify expected outcomes for each goal:

- Approximately 32 of the 40 participants who enter the program will successfully complete it.
- Approximately 24 of these program graduates will be employed one year after program completion.
- These 24 program graduates will be earning a wage that moves them towards selfsufficiency based on the Wyoming Self Sufficiency Standard.
- Approximately 12 of the 24 program graduates who enter the program utilizing food stamps will show a decrease in their dependence on food stamps.
- Approximately 8 of the 16 program graduates who enter the program utilizing public healthcare will end their dependence on public healthcare.

Describe data collection methods to be used and how data will be provided to validate outcomes: CLIMB Wyoming has extensive experience collecting data on program participants. CLIMB's data collection system is designed to respond to the requirements of TANF programs. Staff members track the number of participants who enroll in and complete the program; the number of participants who acquire employment; and changes in hourly wage rates, childcare assistance, food stamps and health care status before and after the program to evaluate levels of reliance on state assistance. A pre- and post-program mental health assessment identifies mental health symptoms and tracks decreases in symptoms post program.

Data will be provided in quarterly reports to validate outcomes. Quarterly reports will include training completion, hourly wage pre-program and hourly wage post-program. These quantitative goals were selected because they can be consistently tracked and verified using participant or employer interviews and public records

Provide an explanation of the results the program expects to achieve, how data will be collected, and how quality assurance will be conducted to validate measurements: CLIMB Wyoming has a proven track record of meeting and exceeding the results the program expects to achieve (listed above) and is committed to continuous improvement.

Since 2004, CLIMB has tracked the progress of program participants for a full year after completing the program. Participant data is collected at the following post program intervals: work experience placement, first unsubsidized placement, and 3-months, 6-months, 9-months and 12-months after program completion.

Staff members utilize participant self-report forms, staff observations, participant interviews and participant records to document each participant's program outcomes. Data will be tracked in CLIMB's customized database and reviewed regularly by the Fiscal/Research Administrator to ensure accuracy. Progress reports for the TANF grant will be supplied to the Department of Family Services and county representatives as outlined in the special provisions.

In 2005, CLIMB also began partnering with the Wyoming Survey and Analysis Center (WYSAC) to conduct second year follow-ups and provide independent quality assurance. WYSAC staff members use the same standardized interview questions to collect outcome data on each participant at the following intervals: 15-months, 18-months, 21-months and 24-months after program completion. This data is also entered into CLIMB Wyoming's centralized database and reviewed by the Fiscal/Research Administrator.

Resource gap(s) addressed by program: According to the U.S. Census Bureau (2014), 45% of families in Laramie County with a female head of household had income below the poverty level with that number increasing to 70% with children under the age of 5 years old. Within this population, there is a high degree of substance abuse, mental health disorders, family violence, child behavior problems, use of foster care, and legal challenges. All of these factors make this population one of the most at-risk and difficult to reach.

Without successful avenues to self-sufficiency, this population can have a significant impact on community and public resources, and the future opportunities for the children in this population decreases. Poverty and the related disadvantages negatively affect both the educational opportunities that children will have and the educational outcomes that they will likely experience (ETS 2013).

CLIMB Wyoming focuses on addressing the primary needs of the single mother to create a pathway out of poverty for herself and her children. CLIMB Wyoming understands that successfully moving our target population out of poverty takes much more than job training. CLIMB Wyoming incorporates not only the components necessary to help low-income single mothers move toward self-sufficiency, financial independence and family stability through job training and placement, but also services that extend well beyond these job-related components. Our innovative and unique mental-health based program includes group and individual counseling, life skills and parenting skills training, financial education and asset

building and peer group support. In offering comprehensive services, we better prepare our participants for long-term success in the workplace, their communities and their families. This combination of services allows single mothers we serve to overcome their personal barriers to success and make permanent life changes for themselves and their children.

Description of how community wide collaboration in planning and implementation occurred: In Laramie County, CLIMB has identified effective and innovative ways to maximize the services provided to participants through collaboration. CLIMB Wyoming operates as a broad-based, community effort, involving government agencies - in particular the Departments of Family Services and Workforce Services - to identify and address the needs of the working poor and prevent duplication. CLIMB programs strive to ensure efficient use of funds by avoiding any duplication of services and a streamlined referral process making certain clients are receiving the most appropriate services available. Private businesses in Laramie County are essential partners as they share their workforce needs and provide jobs to program graduates.

During the program planning phase, CLIMB staff research and identify career opportunities in high-demand fields, engage and survey businesses and industry groups within these high-demand fields and then, based on input from potential employers, work with community colleges, private training entities and employers to develop a 8 to 10 week training curriculum that includes the required knowledge, skills and abilities for that industry. During program research, staff gathers information from employers within the industry regarding wage, current demand, duties and responsibilities, type of training and career paths. Effective research, planning and training ensures that employer needs are met and participants will be placed into long term job opportunities with a self-sufficient wage and opportunities for career growth.

During the job placement phase, CLIMB Wyoming Business Liaisons work closely with Laramie County employers to support the transition from the comprehensive training phase to on-the-job training. CLIMB staff meets with potential employer partners and gathers information about wages, benefits and opportunities for promotion, prioritizing jobs that will lead to the end goal of long-term employment. Once a job opening is identified and a participant has been matched to the opening, the Business Liaison serves as a participant advocate to negotiate details of employment including wage, work conditions and benefits.

The job placement phase provides compensation to the employer for the first six weeks in exchange for on-the-job training, work experience and additional support that otherwise would not be provided to a new employee. This phase helps transition the participant from training to becoming a reliable, long-term employee. Each participant receives a minimum of two work experience performance evaluations throughout the work placement. The purpose of these performance evaluations is to model effective, proactive, appropriate communication between supervisors and employees, to discuss performance and to identify ways the participant can improve. As the participant nears the end of the agreement, CLIMB staff review the performance evaluations and advocate with the participant to transition into a permanent position. Staff takes both the participant and employer needs into consideration to ensure long-term success for all parties.

Community partners involved in the program implementation. List resources to be provided by each partner: The following list shows several of the local agencies and businesses that CLIMB has partnered with through referrals, life skills training and employee placement: Cent\$ible Nutrition, Wyoming Children's Society, Bethany Christian Services, Educational Opportunity Center, Safehouse, Knife River, Simon Contractors, The Herrera Family, Wyoming State Bar,

Describe what research based programs and strategies will be utilized to make the program successful: CLIMB Wyoming's model is based on over 30 years of successfully helping low income single mothers achieve and maintain self-sufficiency. The model was developed in Cheyenne in 1986 for young, single mothers ages 16 to 21. Recognizing this successful paradigm and the need to reach more single mothers, Wyoming community partners collaborated in late 2003 to agressively expand the model to serve low-income single mothers of all ages across the state. The CLIMB program model has been refined over more than 30 years to best meet the needs of low-income single mother families. CLIMB Wyoming has extensive knowledge and research on providing successful programs for the TANF population and will assist others in making services available to low-income families in Wyoming.

In 2014, Governor Matt Mead and the Wyoming Department of Family Services (DFS) recognized CLIMB's commitment to and impact on families in poverty in Wyoming with the Friends of DFS award. The award is given rarely and has been awarded to a Wyoming organization only three times in recognition of outstanding work in helping Wyoming's families in need.

In 2015, CLIMB Wyoming was recognized as a "Promising Program" by the Center for the Study of Social Policy in a report highlighting innovative strategies for serving the unique needs of young children and their families in rural areas through a multi-generational approach. Titled "Strengthening Supports for Young Parents and Their Children: A Focus on Low-Income Rural and Suburban American Families" the report highlighted CLIMB as one of six rural and suburban organizations nationwide that fully integrates support for each generation, with practices that specifically reflect the developmental needs of both children and young parents, negotiate agreements among multiple service providers, and take action to influence the broader systems that can provide additional support.

Describe how the program will be sustained by the community beyond the funding period: To ensure funding, CLIMB Wyoming has worked over the past 30 years to sustain its programs through two important components: (1) Institutional and Program Sustainability – the capacity to maintain program integrity through continued strong leadership, skilled staff, and a solid base of

community volunteer leaders; and (2) Financial Sustainability – the ability to continue to generate revenue to support CLIMB programs.

CLIMB Wyoming program success is built upon a partnership between the CLIMB professional staff and the continued involvement of government, agency, and business leaders. CLIMB involves community leaders in collaborative planning, ongoing monitoring, and evaluation processes. CLIMB is committed to networking within the community and has established an effective public awareness program to provide community contacts with a continuous information source about programs and services.

CLIMB Wyoming programs utilize a comprehensive and diverse fundraising program including: 1) Foundation and Corporate grant seeking, which includes identification and outreach to appropriate prospects to help underwrite special needs and projects, 2) Major donor cultivation to develop and secure an individual donor base with a capacity to have significant impact on CLIMB Wyoming activities and 3) Government grant seeking, which includes identification of and application to appropriate federal, state and county requests.

Describe the cost-benefits of providing this program: The financial costs to the TANF CPI Program to support the Laramie County CLIMB program for one year will be \$75,000. The financial benefits to participants are that they increase their incomes to livable wages, reduce dependence on government benefits, and learn the skills needed for successful relationships at home and at work.

The program objectives also reach beyond the participants to:

Impact the Family Environment: The comprehensive CLIMB Wyoming program model addresses more than just job training and placement. Participants learn life skills including parenting, stress management and budgeting that improve their capacity for successful parenting and increase their ability to set a positive example for their children. Armed with new coping and communication skills, as well as a steady source of income, our program graduates are able to provide healthier, more stable environments for their children.

Support Wyoming Businesses: CLIMB Wyoming is strengthening businesses by preparing trained workers to succeed and be productive contributors in the workplace. The CLIMB Programs work directly with employers to ensure that their training needs are met.

Benefit Local Wyoming Communities: The benefits to Laramie County are significant as more families move out of poverty. Some of the community benefits include increased school attendance rates, decreased child behavior problems, improved mental health, decreased substance abuse, decreased use of foster care, increased access to private health insurance, and a decrease in the crime rate. Families that break the cycle then have the ability to become positive role models and contributing members of their communities.

The financial benefits to the State of Wyoming as a result of the CLIMB Wyoming Program are also impressive. For every 100 Wyoming families that reach self-sufficiency, Wyoming experiences the following cost savings (conservative estimates):

Medicaid Savings (50 families)¹
Food Stamps Savings (47 Families)²

Program name: Wyoming Family Home Ownership Program (WYFHOP)

TANF purpose(s) addressed in project (list the purposes):

- Primary TANF Purpose: Provide assistance to needy families so that children may be cared for in their own homes or in the homes of relatives by empowering Wyoming working families to achieve the economic, educational and social stability provided by achieving successful home ownership.
- Secondary TANF Purpose: End the dependency of needy parents on government benefits by promoting job preparation, work and marriage through the vehicle of homeownership by empowering Wyoming working families to achieve the income, credit, debt and financial management goals necessary to achieve successful home ownership.
- Third TANF Purpose: Encourage the formation and maintenance of two parent families by providing quarterly family visits focused on setting family, professional, and economic goals as well as quarterly trainings and activities that include family strengthening topics and experiences.

Program description:

Wyoming Family Home Ownership Program (WYFHOP) has a unique partnership across Albany County and Laramie County communities. Together with our families, business partners, donors, faith community partners, and service clubs, we are able to provide a hand up to low-income, working families in Laramie and Cheyenne to achieve first time home ownership. WYFHOP enjoys broad community support with over 39 churches, business partners and professional experts.

WYFHOP changes systems. After families achieve employment, the most important means of making a permanent change from poverty to self-sufficiency is home ownership. WYFHOP is a six to seven year program that supports families in achieving and maintaining successful home ownership, utilizing WYFHOP staff, volunteer mentors, and community resources. Each program starts with an intensive 12 week financial literacy and preparedness course. After individual family savings of at least \$2,400 over the initial 9-24 months of the program, WYFHOP provides each family with funding toward the equity on a new mortgage. The faster a family progresses, the less financial assistance they get in the form of a forgivable second mortgage (to promote self-sufficiency and ensure that our funding goes where it's *most*

needed). All families still have to save a minimum of \$2,400, but they are matched at the following rates: 9 months at a 3-to-1 match, 10-17 months at a prorated 4-to-1 match, and 18-24 months at a 5-to-1 match. Once a family enters the home ownership phase of the program (5 years), they are eligible to apply for a \$1,000 maintenance allowance in years 2, 3, 4, and 5. Home ownership changes current and future generations: providing equity, stability, and an expectation of self-sufficiency for generations to come.

WYFHOP families are provided with the knowledge base needed to be successful homeowners. Community allies are forged for families throughout the course of participation in WYFHOP, introducing families to local lenders, realtors, businesses, property managers, title companies and other financially stabilizing resources. This project is truly a "hand up" program, enabling families to progress from dependency on government programs to true self sufficiency. Each family repairs credit, manages a family budget, troubleshoots economic emergencies, and gets approved for a loan entirely on their own merits. Over the first five years of home ownership, families are able to access additional quarterly financial literacy training, program and community supports, and four years of an annual \$1,000 maintenance grant. The matching funding that allows each family to start out with significant equity in a home means that WYFHOP families have a minimum of \$50,000 - and up to \$70,000 in home equity by their last year in the program.

The family's "starter home" is more than just a home. It's an investment in future generations, as it helps families improve the quality of life for their children, encourages good citizenship through community involvement and home ownership, and sets a new economic standard for generations to come. Our model is based on the research based best practice "Bridges Out of Poverty" model of transitioning families from poverty to the middle class. The matching donations made by businesses and the faith community let WYFHOP families know that their community is willing to invest in them, creating an atmosphere of support and acceptance. The funding provided by grants, foundations, faith partners, business partners, charitable organizations and individual donors will help us provide the most fundamental component in a family successfully transitioning out of poverty: HOPE.

Is this program different than previous programs operated with TANF funds in the past? Yes No I fso, how is it different?

Change #1: A customized database will be in place in June 2016 to track more detailed outcomes, coordinate comprehensive community planning between vocational training/job placement programs and WYFHOP, and track progress in building critical resources identified by the best practice "Bridges Out of Poverty."

Change #2: Our one-size-fits-all savings period of 18-24 months to achieve home ownership has been adjusted. Families who make more expedient advancements toward qualifying for a mortgage by demonstrating consistency in savings through bank statements, repairing poor credit, improving their debt to income ratio, and demonstrating a commitment to volunteering in the community are able to follow one of four tracks to achieve home ownership. About 15% of our families historically demonstrated financial readiness prior to the 18-24 month savings requirement. The faster a family progresses, the less financial assistance they get in the form of a forgivable second mortgage (to promote self-sufficiency and ensure that our funding goes where it's *most* needed). All families still have to save a minimum of \$2,400, but they are matched at the following rates: 9 months at a 3-to-1 match, 10-17 months at a prorated 4-to-1 match, and 18-24 months at a 5-to-1 match.

Change #3: Therapeutic services will be offered to all TANF eligible families to address identified issues, including but not limited to: recovery, depression, anxiety, post-traumatic stress disorder, couples counseling, healthy relationship classes, family counseling, and other diagnosis as needed.

Area(s) served: Laramie County

Population served: Families with an Area Median Income of 50%-80%, but not over TANF guidelines for their family size

Beginning and end date of program: October 1, 2016 - September 30, 2017

Projected number of individuals served by this program: 80 Individuals

Provide an explanation on how income information will be gathered to determine TANF eligibility for the low-income families being served in the program. Applicants shall use a TANF Eligibility Intake Form. A copy of the TANF Eligibility Intake Form shall be attached to this proposal.

TANF Eligibility Form will be completed for all TANF eligible families, and will be stored in our electronic database. Eligibility will be verified quarterly, during family visits / goal setting sessions.

Program availability: when is the program offered (e.g. time of day, how often, time of year)? WYFHOP is offered year round, providing as-needed quality of life supportive services as well as quarterly family visits, self-assessments, goal setting, and trainings. Additional training and learning opportunities are provided throughout the year due to innovative community partnerships.

Intent of the program: WYFHOP is dedicated to empowering Wyoming working families to achieve successful home ownership. We are ending poverty one family at a time, while simultaneously effecting generational change through the vehicle of home ownership. The family's "starter home" is more than just a home. It's an investment in future generations, as it helps families improve the quality of life for their children, encourages good citizenship through community involvement and home ownership, and sets a new economic standard for generations to come. Our model is based on the research based best practice "Bridges Out of Poverty" model of transitioning families from poverty to the middle class. Volunteer mentors share their wisdom, experience, and expertise in a wide variety of areas in order to build supportive and engaging relationships with WYFHOP families.

Goals of the program:

- Goal 1: Ensure community wide collaboration in planning and implementation efforts
- Goal 2: Award TANF funding based on data-driven, community based decision making
- Goal 3: Implement and evaluate effective, research based programs and strategies.
- Goal 4: Provide services that will assist families in moving toward self-sufficiency.
- Goal 5: Enhance sustainability of community efforts beyond the funding period.
- **Goal 6:** Provide assistance to needy families to be cared for in their own home or the homes of relatives.
- **Goal 7:** End dependence on government benefits through job, work, marriage, financial planning, and social stability.

- **Goal 8:** Encourage the formation and maintenance of 2 parent families.
- Goal 9: Increase in wages to 200% or more of the federal poverty level.

SEE TABLE BELOW FOR THE FOLLOWING:

List objectives that will be implemented to accomplish the program goals: With our new customized database, objectives will tied to individual families. List performance measures on each goal that will be used to evaluate the program's success:

Performance measures will be used to track successes and areas for improvement.

Quantify expected outcomes for each goal: All outcomes will be measurable.

Describe data collection methods to be used and how data will be provided to validate outcomes: With the implementation of a new database, all documentation will be tracked electronically. SMART Goals Sheets will be completed at each family visit, and entered directly into the database to improve data accuracy, tracking of patterns by family, assessment of performance measures, and identifying areas to improve the program.

Provide an explanation of the results the program expects to achieve, how data will be collected, and how quality assurance will be conducted to validate measurements: Wyoming Family Home Ownership Program's mission is empowering Wyoming working families to achieve successful home ownership. We use home ownership as a catalyst for change in helping families build regular habits that support their efforts to be financially self-sufficient so they can successfully exit poverty and remain a stable part of the middle class.

Most of our data is collected through attendance at trainings, family visits and goal setting sessions, and follow up meetings. We collect bank statements to verify progress toward savings. We also follow up on credit repair / credit building plans. Starting in June of 2016, all of

this data will be entered into a customized database designed to track each family's progress toward each goal listed (using the forms listed in the table above). The database will allow us to engage in accurate and relevant data-driven decision making for the program and its participating families.

The SMART Goals Self Assessment Form to collect important data looks like this:

Resource gap(s) addressed by program:

According to the Wyoming Housing Database Partnership data, households for Laramie County include 25,533 owned and 12,043 occupied by renters. Tenure for households for the years from 2008-2012 show that the number of *renting* households has increased over 41

"Cost burden" is defined as housing costs that range from 30 to 50% of gross household income.

"Severe cost burden" is when housing costs are above 50% of gross household income.

Housing Type Laramie County		State of Wyoming		
Renters	16.9% cost burden	23.1% cost burden		
Refilers	16.8% severe cost burden	13% severe cost burden		
Homoownore	18.2% cost burden	17.2% cost burden		
Homeowners	9.5% severe cost burden	9.3% severe cost burden		

Clearly, in Laramie County renters experiencing a severe cost burden are almost double the number of homeowners experiencing the same burden. And 33.7% of renters are bearing the

brunt of a *cost burden* to *severe cost burden* situation. Homeowners experience slightly higher *cost burden*, but ALMOST HALF of the *severe cost burden* that renters are managing. It is clear that in Laramie County, homeowners experience a significantly LOWER *severe cost burden* than the statewide average. Becoming a homeowner truly is a catalyst toward transitioning Laramie County families from poverty to the middle class.

Additionally, the Federal Reserve Bank of St. Paul, Minnesota conducted research showing that home ownership is a key component for families moving out of poverty, off of government services, and into self-sufficiency. The average net worth of a renter in the U.S. is just under \$10,000, while the average net worth of a homeowner is just over \$60,000. Additionally, homeowners are adequately resourced to provide a healthy, stable, stimulating and consistent environment to raise their children, so their families experience a drop in teen pregnancy, risky behaviors, and substance use – while also experiencing better grades, an increase graduation rate, increased college attendance, and a higher likelihood that their children will grow up to be self-sufficient homeowners in their own adult lives.

NEW data-driven need: Additionally, in reviewing our internal data collected on our SMART Goals Self Assessment forms, we've discovered many of our TANF eligible families need extra supports and assistance in the areas of substance abuse prevention / recovery and mental health services. Community referrals can take months to reach fruition, and our families need access to this level of support on an as-needed basis. Once a crisis is managed or averted, a family can then choose whether to continue working with the on-call therapist for WYFHOP or request to see a therapist of their choosing with assistance from our program.

Description of how community wide collaboration in planning and implementation occurred:

In planning and implementing the ideals and practical components of the Wyoming Family Home Ownership Program, church partners came together to recognize and research the needs of Laramie County's children. The United States Census published that 20% of families move at least once a year in Laramie County. One in five families moved at least once a year, running the risk of moving to a new school, re-establishing their home and most importantly, facing the emotional and educational disruptions caused by constant transition.

As WYFHOP developed and settled into the community, we've cultivated board members active in banking, legal, military, tourism, state services, therapeutic services, and hospitality services. Better yet, as of June 2015 our board is comprised of 50% or more alumni of the WYFHOP program. Our agency will be guided by esteemed professionals *and* families who have successfully attained the dream of owning a home. It is important that our families have a voice in the future of WYFHOP and its impact on Laramie County.

At the staff level, the Executive Director volunteers and collaborates with other nonprofit and social service agencies. Involvement in the Laramie County Community Partnership, the Wyoming Nonprofit Network, Laramie County Community College, the Wyoming Homeless Collaborative, Greenpath Debt Solutions, 2-1-1, United Way, Jonah Bank, First Interstate Bank and other collaborative community services allows critical community connections to be forged between WYFHOP families and the community. Additionally, her training in career development, goal setting, family dynamics, wraparound services, parenting, educational advocacy, and court proceedings give her a wide range of supportive methodologies to incorporate into helping families transition from poverty to the middle class.

With a focus on developing civic leadership skills and opportunities for WYFHOP families within Laramie County, our participants give back and proactively seek ways to engage their community as homeowners. As new property owners and taxpayers, they experience the pride that comes with using their talents to improve their community. In short, they have a very real stake in the future of their neighborhoods, schools, town and community.

Community partners involved in the program implementation. List resources to be provided by each partner:

WYFHOP works with 9 faith partners who provide in-kind services such as marketing, volunteering, meeting space, meals and financial contributions. Our community partners include 20 organizations and businesses who provide referrals, volunteers, and mentors with a wide knowledge base to guide and advise families in their new role as home owners. An additional eight community partners financially give to WYFHOP in a variety of ways that supports the program.

Describe what research based programs and strategies will be utilized to make the program successful: We use the following research-based curricula and strategies to help us achieve program goals:

- Realizing the American Dream: Homebuyer Education
- Getting Ahead in a Just Getting By World
- · Bridges Out of Poverty
- True Colors: Personality Types
- 7 Habits of Highly Effective People
- PAIRS Practical Application of Intimate Relationship Skills
- 5 Love Languages
- Power of Two
- Dave Ramsev for Kids
- JustFaith

Describe how the program will be sustained by the community beyond the funding period: The WYFHOP Board of Directors and Executive Director actively diversify funding streams so the program is never dependent on just one source of funding. Our funding includes: state, city, and county grants; foundations; nonprofit support; business partners; faith partners; private donors; fundraising; and contributions from 100% of the Board. We also started an endowment in 2016 with the matching funds provided by the John P. Ellbogen Foundation.

Describe the cost-benefits of providing this program: Last year, WYFHOP a total of six families in both Albany and Laramie County successfully transitioned off of all government benefits and social service programs. WYFHOP families learn how to achieve home ownership on their own merits. Families learn to build credit, reduce their debt to income ratio, build a solid savings account, and qualify for a mortgage. As tax paying property owners, WYFHOP families become invested in the neighborhood where they live and raise their children. Homeowners are more likely to know their local representatives and how voting affects property taxes, education, and quality of life. With additional coaching in civic leadership and volunteerism, WYFHOP families understand that they are expected to give back to the community that invested in them. Our families seek jobs that improve their financial picture, develop relationships within their support network, build professional relationships with lenders / realtors / title companies and other professionals, and learn about improving the value of their home in order to improve the overall neighborhood so property values increase. Lastly, families who go through WYFHOP

start off with immediate equity, and remain in the home for a minimum of five years. Yearly maintenance grants of up to \$1,000 are available if families attend two or more quarterly trainings, and actively engage in family visits.

Specific costs of the program: Applicant shall submit their proposed budget utilizing the format on page 6 and 7 of this proposal. The quarterly invoice submissions shall also be in the attached format. Administrative costs shall be at or below 10% of your program costs and separated out. Applicant shall submit a proposed budget in line item detail with a narrative explaining each line item and the purpose of the expenditure.

Budget amount requested: \$4,072.00

Required Reporting: Applicant shall submit a quarterly report detailing the services provided to TANF eligible families. The required format of this report is on page 8 and 9 of this proposal.

4/19/2016

Certification: I certify to the best of my knowledge that the information contained in this application is correct. If awarded funding under this grant, I certify that this project will be conducted in accordance with the funding source requirements and the assurances provided within the application.

Progress Reporting:

<u>Goal 1:</u> B&GC will identify and provide 60 TANF-eligible youth opportunities to attend the Club after school and/or during the summer especially those who would otherwise be left unsupervised or caring for younger siblings. By attending the Club, the kids will participate in programming to help them achieve academic success, develop their financial literacy, prepare for their career, and understand more about themselves and supportive relationships.

Objective A: Promote the Club as an opportunity to TANF-eligible youth through the school district.

Performance Measure: Number and types of contacts with school personnel throughout the district.

Evaluation: What is the performance outcome of Objective A?

Objective B: Youth participate at least 52 times per year.

Performance Measure: Number of days attended through membership tracking software.

Evaluation: What is the performance outcome of Objective B?

Objective C: Youth participate in age-appropriate programs which fit TANF goals.

Performance Measure: Number of times and types of programs attended, pre- and post-tests as available per program area.

Evaluation: What is the performance outcome of Objective C?

Objective D: Youth achieve academic success.

Performance Measure: Report cards and participation in summer learning activities.

Evaluation: What is the performance outcome of Objective D?

<u>Goal 2:</u> CLIMB will ensure that low-income single mothers receive the training, skills, and support necessary to reach economic self-sufficiency and to succeed long-term in all aspects of their lives.

Objective A: Graduates are trained and placed in high quality jobs.

Performance Measure: 80% of participants who enter a program will successfully complete it

and 75% of program graduates will be employed after program completion.

Evaluation: What is the performance outcome of Objective A?

Objective B: Increase their incomes to livable wages.

Performance Measure: The target wage post-program will be a wage that moves participants

towards self-sufficiency based on the Wyoming Self Sufficiency Standard.

Evaluation: What is the performance outcome of Objective B?

Objective C: Reduce dependence on government benefits.

Performance Measure: 50% of program graduates who enter the program utilizing food stamps will show a decrease in the dependence on food stamps; and 50% of program graduates who enter the program utilizing public healthcare will show a decrease in the dependence on public healthcare.

Evaluation: What is the performance outcome of Objective C?

Objective D: Learn the skills needed for successful relationships at home and at work.

Evaluation: What is the performance outcome of Objective D?

Attachment B
