

**RIGHT OF WAY EASEMENT
LARAMIE COUNTY/ROARING FORK MIDSTREAM, LLC**

STATE OF WYOMING)
) ss. KNOW ALL MEN BY THESE PRESENTS:
COUNTY OF LARAMIE)

THAT THE UNDERSIGNED, Laramie County, of P.O. Box 608, Cheyenne, WY 82003, designated herein as "Grantor", for and in consideration of the sum of Ten and More Dollars (\$10.00), the receipt of which is hereby acknowledged, do hereby grant, warrant, sell and convey to **Roaring Fork Midstream, LLC**, whose address is **1125 17th Street, Suite 650, Denver, CO 80202**, its successors and assigns, designated herein as "Grantee", (Grantor and Grantee being sometimes collectively referred to hereafter as the "**Parties**" and individually as a "**Party**"), an exclusive right of way easement and privilege to survey (including civil, environmental, cultural and geotechnical surveys), lay, construct, maintain, operate, repair, replace, reconstruct, inspect, remove or abandon in place up to two (2) pipelines, including the right to repair or replace such pipeline, together with all other appurtenances thereto, whether above or below ground, together with the rights of ingress and egress across the land described below in order to access said Right of Way (as defined below) for the purposes aforementioned, and to conduct such other activities as may be convenient or necessary, as determined by Grantee, to transport and convey gas, oil, condensate in, to, on, over, across and through the following described tract of land situated in Laramie County, Wyoming as described below:

Township 14 North, Range 65 West, 6th P.M.
Section 26: Part of NW4
Section 27: Part of S2
Laramie County, Wyoming

1. Width of Easement.

("Grantor's Lands"). The right of way easement granted and conveyed herein is generally depicted in the attached **Exhibit "A"** and made a part hereof for all purposes (hereinafter referred to as "Right of Way"). The Right of Way shall not exceed Thirty feet (30') in width without the express written consent of Grantor. The Right of Way may be expanded temporarily during any period of construction, repair, maintenance, replacement, or removal to a width of one hundred feet (100'), except that such expansion shall be to a width of one hundred fifty feet (150') at all road, ditch and waterway crossings and any areas of severely uneven ground. It is agreed that additional Temporary Work Space may be needed for construction around road, ditch and waterway crossings and any areas of severely uneven ground, and additional Temporary Work Space shall be granted outside of the Right of Way when necessary. Any additional Temporary Work Space shall not exceed one hundred fifty feet (150') in width or more than three (3) times the length of any crossing.

The Right of Way shall become effective when it is fully executed and shall remain in full force and effect for so long as Grantee continues to hold a right authorizing the activities which the Right of Way on Grantor's Lands are intended to benefit ("Term"), and subject to the abandonment clause provided herein. When this Right of Way terminates, the Parties shall execute

any and all releases necessary to evidence the fact that this Right of Way has terminated. The Grantor specially warrants title to the Right of Way, and all other warranties of title, whether express, implied or statutory, are hereby expressly excluded under this Right of Way.

2. Construction Right of Way.

The Grantor, their successors, beneficiaries, heirs or assigns, reserve all oil, gas and minerals rights on and under Grantor's Lands and the right to farm, graze and otherwise fully use and enjoy Grantor's Lands, provided, however, that Grantor, their successors, beneficiaries, heirs, and assigns shall not interfere with Grantee's use of the Right of Way and the rights herein granted, nor shall they excavate, drill, install, erect or permit to be excavated, drilled, installed or erected on, over, under or across said Right of Way, any pit, well, foundation, pavement or any other structure, installation or improvement, whether temporary or permanent, without Grantee's prior written consent. Grantee shall have the right to remove, cut and keep clear all trees, brush and other obstructions, including installations and structures, that may injure, endanger or interfere with the construction, use of, inspection, maintenance and repair of said Right of Way, including pipeline, valves, fittings, tie-overs, cathodic protection equipment and appliances appurtenant thereto. Grantee shall have all privileges necessary or convenient for the full use of the rights herein granted, together with ingress and egress over and across Grantor's Lands described above.

The GRANTEE SHALL bury the top of its pipeline at least forty-eight (48) inches below the surface of the ground. Should it be discovered that any portion of the pipeline has less than thirty six (36) inches of cover due to erosion or any other causes, Grantee shall, as soon as reasonably practical, take such steps necessary to insure such portion of the pipeline has a minimum of thirty six (36) inches of cover.

The GRANTEE SHALL remove only a reasonably minimum amount of vegetation necessary for the construction of the pipeline. Topsoil shall be conserved during excavation, stored and reused as cover on disturbed areas to facilitate regrowth of vegetation.

The GRANTEE HEREBY AGREES to pay to Grantor, within thirty (30) days of Grantor's execution of the Right of Way, a sum as set forth in **Exhibit "B"** as consideration for the Right of Way, it being agreed that Grantee may remove Exhibit B from this Right of Way prior to recording. It is agreed and understood by the Parties hereto, that the consideration paid to Grantor in the amounts set forth in Exhibit B for the rights granted in this Right of Way, is the full, complete, and final payment for the enjoyment and use by Grantee of its rights hereunder, including without limitation for the laying and construction of Pipeline(s) hereunder.

3. Future Uses.

Subject to any limitations provided herein, it is agreed and understood by the Parties hereto that the right of the Grantee, its successors and assigns, to repair or replace the existing pipeline within the Right of Way in the future shall be a successive and recurring right exercisable at the sole discretion of Grantee, its successors and assigns. The Grantee will have no right to use the Easement area for any purpose unrelated to any of the purposes outlined herein.

The Grantor agrees to notify the Grantee of all loss or damage that Grantor believes to have been created due to Grantee's operations on Grantor's Lands.

4. Location of Right of Way.

The rights granted in this Right of Way to Grantee is limited to the identified location as described herein. Grantee shall make reasonable efforts to locate pipeline markers and other appropriate safety signage adjacent to fences or lot lines. Grantee shall obtain written approval from Grantor for any change in use or future expansion of this Right of Way, which approval shall not be unreasonably withheld.

5. Reclamation.

The GRANTEE SHALL restore the surface of the Right of Way, as near as practicable to the condition encountered when the Grantee began its operations on the Right of Way, such restoration to include the repair of any cut fences, leveling of the ground and cleaning up debris left by Grantee. The Grantee agrees to reseed, at Grantee's expense, the area in which grass or foliage were destroyed by acts of Grantee, with the same kind of grass or foliage destroyed, to mulch (if necessary) or cover the ground properly until the ground is adequately covered with sufficient grass or foliage to prevent erosion. The Grantor agrees to notify Grantee of any claimed deficiencies in Grantee's restoration and repair activities.

The GRANTEE WILL notify the Grantor when any planned survey, construction, maintenance, replacement, repair or removal of any pipeline or appurtenances is scheduled to occur. Notice of any emergency construction, maintenance, replacement, repair or removal of any pipeline or appurtenances shall be given as soon as reasonably practical after the Grantee becomes aware of such emergency construction, maintenance, replacement, repair or removal.

The Grantor covenants that it is the lawful fee simple owner of the Grantor's Lands, that Grantor has the right and authority to make and execute the grant of the Right of Way.

6. Liability for Improvements.

Grantor shall have no liability for any costs or expenses incurred in connection with the siting, testing, construction, operation, maintenance, or removal of the pipeline, or any other improvements of any kind made on the Right of Way by Grantee. The rights granted to Grantee hereunder shall be construed to create any responsibility on the part of the Grantor to pay for any improvements, alterations or repairs occasioned by Grantee.

Additional Provisions

Termination/Abandonment: Abandonment of the Easement shall occur if the Grantee has not commenced construction of the pipeline(s) within thirty six (36) months following the date this Right of Way is signed by the Grantor. Abandonment of the Easement shall also occur if the Grantee ceases to operate or maintain the Right of Way within a consecutive twenty-four (24) month period. Abandonment may also be deemed to have occurred due any overt act that shows Grantee's intent to neither claim nor retain any interest in the Right of Way.

If the Grantor believes that the Right of Way has been abandoned, Grantor shall provide written notice thereof to the Grantee through the designated contact person maintained by the Grantee under this Right of Way, said notice will be sent by certified mail and/or facsimile. Unless the Grantee has responded within thirty (60) days of the notice, providing evidence to counter the facts presented by Grantor regarding abandonment, the Grantor may proceed to record an affidavit providing notice of abandonment and termination of this Right of Way with the recorder's office of Laramie County, Wyoming. The Grantee hereby agrees that such notice shall constitute abandonment and termination of this Right of Way.

The Grantee may terminate this Right of Way at any time upon providing written notice of termination on the record at the recorder's office of the County where the Right of Way is located, along with serving a copy of the recorded notice upon the Grantor. Upon the abandonment of this Right of Way, the Grantee shall, at its election and subject to the review and approval of the Grantor, either remove the pipeline with full reclamation of the property in accordance with all applicable regulations and laws, or abandon the pipeline in place in accordance with all applicable regulations and laws, and consent of the Grantor, which shall not be unreasonably withheld by the Grantor. If Grantee elects to abandon the pipeline in place, Grantee shall ensure that all pipelines are environmentally safe and fit for abandonment in place and provide the Grantor with evidence thereof.

Indemnification: To the fullest extent permitted by law, the Grantee agrees to indemnify and hold harmless the Grantor, its elected and appointed officials, employees and volunteers from any and all liability for injuries, damages, claims, penalties, actions, damages and losses caused by or arising from this Right of Way, except to the extent liability is caused by the sole negligence or willful misconduct of the Grantor, its employees, contractors or volunteers.

Entire Right of Way Agreement: This Right of Way, represents the entire and integrated agreement and understanding between the parties in regard to the subject matter herein and supersedes all prior negotiations, statements, representations and agreements, whether written or oral.

Assignment: The rights granted herein are appurtenant to, and covenants running with, the land and shall extend to and be binding upon, and inure to the benefit of, the Grantor and Grantee and each of their respective heirs, executors, administrators, personal representatives, successors, and permitted assigns. This Agreement is intended solely for the benefit of the parties hereto and shall not create any third party beneficiary rights in any other person, other than the respective heirs, executors, administrators, personal representatives, successors, and permitted assignees of Grantor and Grantee. Any sale, transfer, conveyance, or other disposition of the Property or any interest therein by Grantor shall be subject to the Right of Way granted herein. Grantee may not assign, convey or transfer in whole or in part the rights granted herein without notice to, and consent of the Grantor, which consent shall not be unreasonably withheld, conditioned or delayed, as long as such assignee agrees to be bound by the terms of this Right of Way. .

Applicable Law and Venue: The parties mutually understand and agree this Right of Way shall be governed by and interpreted pursuant to the laws of the State of Wyoming. If any dispute arises between the parties from or concerning this Right of Way or the subject matter

hereof, any suit or proceeding at law or in equity shall be brought in the District Court of the State of Wyoming, First Judicial District, sitting at Cheyenne, Wyoming or the Federal District Court, District of Wyoming. This provision is not intended nor shall it be construed to waive Grantor's governmental immunity as provided in this Right of Way.

Governmental Immunity: The Grantor does not waive its Governmental/Sovereign Immunity, as provided by any applicable law, including W. S. § 1-39-101 et seq., by entering into this Right of Way. Further, Grantor fully retains all immunities and defenses provided by law with regard to any action, whether in tort, contract or any other theory of law, based on this Right of Way.

Compliance with Laws: the Grantor shall keep informed and comply with all applicable federal, state, and local laws and regulations, including local covenants that may be applicable to this Right of Way.

Should any portion of this Right of Way be judicially determined to be illegal or unenforceable, the remainder of the Right of Way shall continue in full force and effect as if the illegal or unenforceable portion was omitted. All counterparts shall be construed together and shall constitute one integrated agreement.

The effective date of this Easement grant is the date of the signature last affixed to this page.

IN WITNESS WHEREOF, Grantor has caused these premises to be signed, executed and delivered this 4th day of October, 2021.

EXHIBIT "B"
CONSIDERATION

[TO BE REMOVED PRIOR TO RECORDING]

This Exhibit B is a part of the Right of Way between Roaring Fork Midstream, LLC (Grantee) and Laramie County (Grantor), dated October 4, 2021, notwithstanding that it may be detached from the Right of Way and excluded from recording in the Public Records.

Grantor and Grantee agree as follows:

1. There shall be a one-time payment in an amount equal to \$25.00 per rod for the installation of the pipeline.
2. Grantor and Grantee agree that the provisions of this Exhibit B are highly confidential and shall not be shared with third parties without the prior written consent of the other Party. Notwithstanding the foregoing, the Parties shall have the right to make the following disclosures without the consent of the other Party: (a) Grantor and Grantee shall have the right to disclose the provisions of this Exhibit B to its officers, employees, partners, debt and equity providers, agents or representatives in the ordinary course of its business with respect to this Right of Way, and (b) as otherwise required by law, provided that the disclosing Party shall give immediate notice of any demand of a Party to divulge any information concerning or relating to this Right of Way and provide further that the disclosing Party cooperate with the Party opposing disclosure, including the assertion of all proper objections to such disclosure.
3. Grantor and Grantee have separately initialed the provisions contained in this Exhibit B in the spaces provided below.
