

RESOLUTION NO.

A RESOLUTION AUTHORIZING THE SUBMISSION OF A GRANT APPLICATION TO THE WYOMING OFFICE OF HOMELAND SECURITY FOR THE FFY 2019 STATE HOMELAND SECURITY GRANT PROGRAM (SHSP), ON BEHALF OF THE GOVERNING BODY OF LARAMIE COUNTY, WYOMING TO REQUEST FUNDING FOR THE SHERIFF'S DEPARTMENT FOR A MOBILE RADIO PROJECT IN THE AMOUNT OF \$224,000.

FOR THE PURPOSE OF: REQUESTED FUNDS WILL BE USED TO PURCHASE UP TO THIRTY-TWO MOBILE RADIOS.

WITNESSETH

WHEREAS, the Wyoming Office of Homeland Security receives FFY 2019 SHSP funds from the Federal Emergency Management Agency and;

WHEREAS, the Wyoming Office of Homeland Security distributes a portion of these FFY 2019 SHSP funds to Wyoming Counties and;

WHEREAS, the Laramie County Board of Commissioners is eligible to apply for and receive FFY 2019 SHSP funds for the Sheriff's Department and;

WHEREAS, the Governing Body of Laramie County desires to participate in the Wyoming Office of Homeland Security Grant Program (SHSP) by sponsoring this grant application to assist in financing the Sheriff's Department; and

WHEREAS, the Governing Body of Laramie County has been provided with preliminary cost estimates and information on this project; and

NOW, THEREFORE, BE IT RESOLVED BY THE GOVERNING BODY OF LARAMIE COUNTY that a grant application in the amount of \$224,000 be submitted to the Wyoming Office of Homeland Security for consideration of assistance in funding the Laramie County Sheriff's Department under the FFY 2019 SHSP grant program.

BE IT FURTHER RESOLVED, that Sandra Newland, or her successor in the position of Laramie County Grants Manager, is appointed as agent of the Laramie County Board of Commissioners to execute and submit applications and certifications for these funds and to receive funds and implement the programs funded under this grant.

PASSED, APPROVED AND ADOPTED THIS 16th DAY OF APRIL, 2019.

1. The first step in the process of identifying a problem is to define the problem. This involves identifying the symptoms of the problem and determining the scope of the problem. Once the problem has been defined, the next step is to identify the causes of the problem. This involves identifying the factors that are contributing to the problem and determining the root cause of the problem. Once the causes of the problem have been identified, the next step is to develop a plan to address the problem. This involves identifying the actions that need to be taken to address the problem and determining the resources that will be needed to implement the plan. Once a plan has been developed, the next step is to implement the plan. This involves taking the actions that have been identified in the plan and monitoring the progress of the plan. Finally, the last step in the process is to evaluate the results of the plan. This involves determining whether the plan has been successful in addressing the problem and identifying any lessons learned from the process.

1. The first step in the process is to identify the problem or issue that needs to be addressed. This involves gathering information and understanding the context of the problem.

1. The first step in the process is to identify the problem or issue that needs to be addressed. This involves gathering information and understanding the context of the problem.

Will you accept partial funding?

☒ Yes

☐ No

Please explain: Our request is for the purchase of up to thirty-two mobile radios, installation and accessories. If we are partially funded we would still be purchasing mobile radios, just a smaller quantity.

FFY2019 State Homeland Security Program Grant Application

Project Description

Project Justification: Interoperable Emergency Communications

Briefly describe the project and how it supports the investment justification.

The Laramie County Sheriff's Department is requesting funding for thirty-two mobile radios. This project falls under the Interoperable Emergency Communications section as it provides operational support to the department. Radio equipment will be compatible and interoperable with surrounding systems and will meet the SAFECOM guidance and align with the Statewide Communication Interoperability Plan (SCIP). Within the 2018 THIRA Operational Communications was established as a gap in Laramie County. We ranked communications as a high priority and this includes having the capability and capacity to coordinate with all agencies on scene. Communication needs are critical to the success and efficiencies of a department and when that department is law enforcement it is critical.

Describe threats and hazards that create the need.

Mobile radios are an essential component to providing protection within Laramie County and to ensure the Sheriff's Department meets all of the capabilities needed to mitigate a catastrophic event. Our current mobile radios have had a long service life, and Motorola has discontinued service support for these radios effective fall of 2018. Our department needs to be able to replace these radios with new mobile radios that are WyoLink compatible and Project 25 capable. Without proper radio communication our department is unable to provide on scene security or operational coordination.

Explain this project's dual applicability to all-hazard events (manmade and natural hazards):

The mobile radios can be used on all scenes. The cause of the threat/scene is not a prohibiting factor for the equipment to be utilized. These radios are also a deployable asset that could be requested and used throughout the state if needed.

Identify portions of the THIRA and SPR that the project will address.

Our request of mobile radios addresses the Laramie County THIRA with examination of the Operational Communications, Operational Coordination and On-Scene Security, Protection and Law Enforcement capabilities. The THIRA confirmed our known gap in operational communications, as the

FFY2019 State Homeland Security Program Grant Application

technology is continually evolving. The mobile radios would facilitate a quicker response on scene and an un-interrupted communication link with other responding agencies. The mobile radio units will be installed in Laramie County Sheriff Department vehicles and will provide our community partners with a collaborative response effort.

How will this project increase capability or reduce vulnerabilities in protecting, preventing, responding, or recovering from an act of terrorism?

The proposed project will increase our office's safety and capacity to communicate with other officers and agencies both off and on scene. The new mobile radio equipment will increase capabilities across the board and will reduce officer vulnerabilities. The radios will facilitate proper protection, prevention, and response to all scenes to include acts of terrorism.

Provide justification on how the project will be maintained, supported, and sustained.

The Laramie County Sheriff's Department will assume all responsibility for the maintenance of the equipment to keep it operational and ready for use internally and externally by MOU partners. The requested equipment can easily be sustained by Laramie County for future operations. Our request would assist the Laramie County Sheriff's Department and the State in operational communications with WyoLink compatible radios that are P25 compliant.

FFY2019 State Homeland Security Program Grant Application

Core Capabilities

Core Capability:

The Core Capabilities are outlined in the National Preparedness Goal which can be found at: <http://www.fema.gov/pdf/prepared/npg.pdf>. Additional information regarding the Core Capabilities can be found by going to <http://www.fema.gov/core-capabilities>. The Crosswalk of Target Capabilities can be located at <http://www.fema.gov/pdf/prepared/crosswalk.pdf>

Primary: **Operational Communications**

Secondary: **On-Scene Security, Protection, and Law Enforcement**

Tertiary/Third: **Operational Coordination**

Describe existing capability levels.

The Laramie County Sheriff's Department currently has older mobile radios that are no longer supported by Motorola. We utilize our deputy vehicles (with mobile radio) for off and on scene communications between various agencies involved. A gap that was identified in the THIRA was communications and project will address the Laramie County Sheriff's Department insufficiency. The project will bring the department into full compliance with the WyoLink communications system and completes the interoperable communication needs of the Sheriff's Department.

Please provide an overview of the trainings, exercises, real events, or other needs assessments that have identified this as a gap (included the cause of the gap).

The Laramie County Sheriff's Department participates in all area trainings and exercises. We have been highly involved in all planning and training efforts coordinated by our EMA office. We participate in all area exercises, trainings, table tops and planning efforts with LCCC, refinery, CFD and the State. When we participated in the 2018 THIRA, not having adequate mobile radio communication capability was a concern. In our THIRA we identified Operational Communications as a gap and made it a high priority. This gap is primarily caused by aging equipment.

How will this project reduce capability gaps?

If funded, the mobile radios will allow our office and authorized users to use the equipment on or off scene. These mobile radios will support our law enforcement efforts within the community and provide extended coverage and access to the Combined Communication Center. Our request supports the Wyoming Office of Homeland Security's mission to comply with the SAFECOM Guidance for Emergency Communications and aligns

FFY2019 State Homeland Security Program Grant Application

with the Statewide Communications Interoperability Plan. Mobile radios will be programmed to interface with State WyoLink requirements, allowing multi-jurisdictional usage. The mobile radios will provide the Laramie County Sheriff's Department with enhanced operational communications.

Basic Project Information

Primary Mission Area*: **Recovery**

Additional information regarding these Mission Areas can be found at: <http://www.fema.gov/mission-areas>

Does this investment focus on building new capabilities or sustaining existing?

- ☐ Build
☒ Sustain

Is any part of this proposed project a deployable asset? *(Identifies the availability and the utility of an asset to multiple jurisdictions, regions, and the Nation; provides information on mobility of assets in an area. An asset that is physically mobile and can be used anywhere in the United States and territories via Emergency Management Assistance Compacts (EMAC) or other mutual aid/assistance agreements)*

- ☒ Yes
☐ No

Please explain:

Yes, this equipment can be used as deployable asset, but they will be physically installed in the patrol cars of the Laramie County Sheriff's Department.

Is any part of this proposed project a shareable asset? *(Identifies the asset's ability to augment and sustain a reinforced response within a region. An asset that can be utilized as a local, state, regional, or national capability, but is not physically deployable (i.e., fusion centers)*

- ☐ Yes
☒ No

Please explain:

This equipment can be used for multi-jurisdictional response, but is physically deployable.

Does this project support a NIMS typed resource?

- ☒ Yes
☐ No

Please explain:

Yes, the equipment is supportive of NIMS

Has this project been identified as a local priority through trainings, exercises, real world events, or other needs assessments?

- ☒ Yes
☐ No

FFY2019 State Homeland Security Program Grant Application

Please explain:

The Laramie County Sheriff's Department has prioritized this project to assist with addressing the identified gaps within the THIRA under Operational Communications. The mobile radios will be WyoLink compatible and Project 25 capable.

Does this project support a previously awarded investment?

☒ Yes

☐ No

If yes, what previous year, investment name and last completed milestone?

This request for mobile radios is a continuation of a previously funded project with the objective of upgrading the Laramie County Sheriff's Department Operations Division. The Laramie County Sheriff's Department received funding out of SHSP 2018 for the purchase of seventeen mobile radios (these radios were purchased and the grant has been closed out).

FFY2019 State Homeland Security Program Grant Application

Milestones

Submit at minimum of three (3) milestones for all projects. Milestones should represent a logical progression of the project to allow for realistic monitoring and management of grant funding. This attribute will function as a tool for measuring project progress in future reporting periods. Provide a high level narrative description of activities to occur within each milestone including anticipated milestone dates/timeframes.

	Milestone/ Key activity	Projected Start Date	Projected End Date
1	Upon Award, request quotes for equipment	10/1/2019	12/31/2019
2	Evaluate quotes, award contract and purchase equipment	1/15/2020	3/15/2020
3	Installation, training and implementation of equipment	4/15/2020	07/15/2020
4	Closeout of Grant funds	7/15/2020	07/30/2020

1. A grant award is anticipated to occur in October 2019. At this time we will establish a budget and accounting line items to prepare for the grant. After funding has been awarded we will go out for a formal quote process. We are anticipating this will be completed by the end of December 2019.
2. We plan on receiving quotes the beginning of February 2020 and at that time all quotes will be evaluated and a vendor recommended to the County Commissioners. Once this process is complete we will be moving forward with our selected vendor to purchase the equipment. We are allocating two months for this process.
3. Beginning in April of 2020 we anticipate receiving the equipment, and having it properly installed. We are estimating three months for this process to allow for fluctuating shipping and installation time. At the time of the equipment arriving we will inventory and sticker all radios.
4. Our final milestone will be to close out and finalize all grant items for the grant from Wyoming Office of Homeland Security. We anticipate this concluding around July 30, 2020.

Budget Narrative

Instructions: Below you will find a budget table for each of the 5 solution areas: planning, organization, equipment, training, and exercise. Complete a budget table and narrative for each solution area associated with your project. For more information on allowable expenses for each solution area, please see the 2019 SHSP application guidance.

Budget Summary Table

Please submit the budget narrative that further details the total amount of funding being requested for each solution area.

Solution Area	Amount of Funding Requested
Planning	\$0.00
Organization	\$0.00
Equipment	\$224,000.00
Training	\$0.00
Exercise	\$0.00
Total Amount:	\$224,000.00

Equipment Description	AEL Code	Requested Amount
(32) APX8500 Dual Band Mobile Radios	06CP-01-MOBL	\$224,000.00

The AEL is available at <http://www.fema.gov/authorized-equipment-list>. Some equipment items require prior approval before the obligation or purchase of the items. Please reference the grant notes for each equipment item to ensure prior approval is not required.

Narrative: Summarize planned expenditures requested for equipment. What is the gap identified through the THIRA/SPR being addressed? Describe how the funding will contribute to building or sustaining a core capability.

We are requesting funding for up to thirty-two mobile radios with installation, accessories and equipment necessary to ensure proper functioning of the communications system. The Sheriff's Department will move forward with expenditures after a formal quote process has occurred and once a vendor has been selected. The gap identified is in Operational Communications and this project will address the concern within the Laramie County Sheriff's Department. If funded, this equipment will contribute to reducing Laramie County gaps in Operational Communications related to outdated equipment. We will be able to build on this core capability for future expansion and strengthening of operations.

Communication Maintenance and Sustainment Plan

The Department will inventory and track the assignment of the interoperable communication equipment. There is regular annual maintenance performed by technicians either through a maintenance contract or through an extended warranty. We intend to utilize the equipment as long as possible and as long as they are supported by Motorola or other vendors for service and parts. In the past, we have generally utilized interoperable equipment for ten years or more before replacing them; generally using the old equipment as trade-ins.

Critical Infrastructure Protection

The sworn Sheriff's Department staff is part of the critical infrastructure protection for Laramie County. They serve as the security providers for the Detention Center as well as for the courthouse and other county government buildings located at the county government complex in downtown Cheyenne. Typically, they will be the first responders should there be a security response needed in the city or county courtrooms or in the event of a critical incident in the county government complex; and typically they will be responding before law enforcement is called to, or arrives at, the complex. Having proper communications is vital, and updating mobile radio capability to be in line with WyoLink and the county communications center is key to providing community protection.

Training and Exercise Plan

The Laramie County Sheriff's Department will train deputies on the proper use of the requested mobile radios. These radios will be maintained by our department for the lifespan of the equipment, typically ten years.

Respectfully,

Rich Hillegas

FFY2019 State Homeland Security Program Grant Application

Application Checklist

Required:

- ☒ Complete FFY 2019 State Homeland Security Program Grant Application
- ☒ NIMS Adoption Resolution
- ☒ THIRA/SPR Certification

If applicable:

- ☒ Communications maintenance and sustainment plan
- ☐ Training and Exercise Plan (required if funding is being requested for training or exercise)
- ☒ Any applicable supporting documentation (maps, product specifications, quotes, etc.)

Submit completed applications in PDF format electronically to:

Program Manager Rachel Nuss

Applicable Grant Programs: Amtrak , BZPP , CCP , EMPG , EOC , IBSGP , IECGP , LETPA-SHSP , LETPA-UASI , MMRS , OPSG , PSGP , PSIC , SHSP , THSGP , TSGP , UASI

Grant Notes: This section includes equipment and systems that provide connectivity and electrical interoperability between local and interagency organizations to coordinate CBRNE response operations. When utilizing FEMA program funds in the category of Interoperable Communications Equipment to build, upgrade, enhance, or replace communications systems, grantees and sub-grantees should develop a comprehensive interoperable communications plan before procurement decisions are made.

Grant funds may be used to cover only those services provided during the grant project period. Grantees are reminded that supplanting of previously planned or budgeted activities is strictly prohibited. Grantees should coordinate with their assigned FEMA preparedness officer to determine the appropriate allowable cost category for these purchases.

Applicable Core Capabilities: Environmental Response/Health and Safety , Intelligence and Information Sharing , Interdiction and Disruption , Mass Search and Rescue Operations , On-scene Security and Protection , Operational Communications , Operational Coordination , Public Health and Medical Services , Public Information and Warning , Public and Private Services and Resources , Screening , Search , and Detection

Certain products in this category have been identified as requiring an Environmental and Historic Preservation (EHP) review. This does not apply to mobile and portable equipment, however all other items must be submitted for review. Please contact your assigned GPD Program Analyst or the Centralized Scheduling and Information Desk (CSID) at 1-800-368-6498 for further information.

06CP-01-HFRQ Radio, High Frequency (HF) Single Sideband

Description: High frequency (HF) single sideband communications equipment.

RESOLUTION NO. 180320-112

A RESOLUTION ADOPTING THE NATIONAL INCIDENT MANAGEMENT SYSTEM (NIMS), ON BEHALF OF THE GOVERNING BODY OF LARAMIE COUNTY, WYOMING

WITNESSETH

WHEREAS, the President in Homeland Security Directive (HSPD)-5, directed the Secretary of the Department of Homeland Security to develop and administer a National Incident Management System (NIMS); which would provide a consistent nationwide approach for Federal, State, and local governments to work together more effectively and efficiently to prevent, prepare for, respond to and recover from domestic incidents, regardless of cause, size or complexity;

WHEREAS, the collective input and guidance from all Federal, State, and local homeland security partners has been, and will continue to be, vital to the development, effective implementation and utilization of a comprehensive NIMS;

WHEREAS, it is necessary and desirable that all Federal, State, and local emergency agencies and personnel coordinate their efforts to effectively and efficiently provide the highest levels of incident management;

WHEREAS, to facilitate the most efficient and effective incident management it is critical that Federal, State, and local organizations utilize standardized terminology, standardized organizational structures, interoperable communications, consolidated action plans, unified command structures, uniform personnel qualification standards, uniform standards for planning, training, and exercising, comprehensive resource management, and designated incident facilities during emergencies or disasters;

WHEREAS, the NIMS standardized procedures for managing personnel, communications, facilities and resources will improve the county's ability to utilize federal funding to enhance local agency readiness, maintain first responder safety, and streamline incident management processes,

WHEREAS, the Incident Command System components of NIMS are already an integral part of various city/county incident management activities, including current emergency management training programs; and

WHEREAS, the National Commission on Terrorist Attacks (9-11 Commission) recommended adoption of a standardized Incident Command System.

NOW, THEREFORE, BE IT RESOLVED BY THE GOVERNING BODY OF LARAMIE COUNTY that the National Incident Management System (NIMS) is established as the County standard for incident management; and

BE IT FURTHER RESOLVED, that Jeanine West, or her successor in the position of Director of EMA, is appointed as agent of the Laramie County Board of Commissioners to execute and submit items and certifications for NIMS compliance.

PASSED, APPROVED AND ADOPTED THIS 20th DAY OF MARCH, 2018.
