3. Please describe "What" your need is and "Why" you need it.

The Laramie County Sheriff's Department is requesting equipment to help us respond to all events in our community that are classified as hazardous, violent, turbulent and/or terroristic. We are requesting "ready bags" and riot gear to include gas masks for our deputies.

A ready bag is a mobile bag that can be equipped with critical medical supplies, extra ammunition, tools and gear to help an officer/deputy survive and to protect life during critical events, to include; active shooter response, terrorist incidents, weapons of mass destruction, or natural disasters. Many law enforcement officers set up ready, or bail out, bags for response to in-progress violent crimes.

We are also requesting riot gear to include gas masks, as the current gear we have is outdated and not in compliance with current standards. In the last year to year and a half, the LCSO has had to prepare for potential riot situations within Laramie County. The LCSO was requested by the Wyoming Highway Patrol on two occasions to prepare for and assist with potential

riot situations at the Wyoming State Capitol. Additionally, the Sheriff's Department has had to prepare for the potential for riots within Laramie County in the aftermath of the George Floyd event. Unfortunately, several cases or events may require riot gear within our community and aiding the State of Wyoming. Proper defensive gear is needed by the Laramie County Sheriff's Department in order to protect the public and safely do our job.

4. List your AEL Codes here. REQUIRED for all equipment requests. The AEL is available at <http://www.fema.gov/authorized-equipment-list>.

Some equipment items require prior approval before the obligation or purchase of the items. Please reference the grant notes for each equipment item to ensure prior approval is not required.

Ready Bags: AEL 01ZP-00-GBAG Bag, Ensemble Gear Storage &/or \$19GN-00-BGPK.

Riot Gear: 01LE-01-ARMR body armor, 01LE-01-HLMT Ballistic Helmet, 01LE-01-SHLD Ballistic Shield, 01LE-02-PRPD Protective tactical padding.

Gas Masks: 01AR-02-APR Respirator, Air Purifying, Full-Face, Tight-Fitting, Negative Pressure CBRN and 01CL-01-ENSM Ensemble, Law Enforcement CBRN Protective LERL-1.

5. Does this project require new construction, renovation, retrofitting or modifications of an existing structure? Are you drilling holes in walls, turning dirt or modifying an existing structure in any way?

☐ YES - An EHP may be required

☒ NO

6. Does the requested funding cover all components of the project?

☒ YES

☐ NO

7. Will you accept partial funding?

☒ YES

☐ NO, explain:

8. Have you applied for other grant opportunities to fund this request?

If yes, please name what other grants have been applied for, the amount of funding received and what portion of the project the funding was for.

No, there are no other grant requests for this equipment.

9. Does this project support a previous SHSP award?

☐ YES

☒ NO

10. ** If you answered YES to number 9, please answer: (a) what previous year; (b) the project name; and (c) the last completed milestone. ** If you answered NO, please put N/A.

N/A

11. Is this project part of a multi-year strategy? If YES, please explain. Otherwise, put NO.

NO

12. Did you or your jurisdiction participate in the THIRA?

☒ YES

☐ NO

13. Does this project address gaps identified in the THIRA/SPR?

☒ YES

☐ NO

14. If YES to #13, explain how this project ties into your THIRA/SPR and how it addresses the gap. If NO, explain what other assessments, exercises or real world events identified the gap being addressed.

(For example: cyber/physical security assessment)

The Laramie County THIRA is an evolving document that examines our core capabilities and risks or gaps that we face in our mitigation, prevention, response, and recovery operations. The capabilities of "On Scene Security, Protection, & Law Enforcement and "Interdiction & Disruption" are critical to our request for riot gear and ready bags. Our officers need to be able

to deploy within the community or as requested to delay, divert intercept and halt threats and hazards. Without proper equipment, this becomes a dangerous situation for our law enforcement and innocent bystanders.

In the event of a "major" riot or active shooter type event within Laramie County the Sheriff's Office would need the requested riot gear to include, but not limited to, shields, chin guards, gas masks, batons, knee & elbow pads, helmets and gas masks. In providing ready bags to Deputies would offer the opportunities for a more rapid response to threats and hazards, reduce vulnerability, and increase resilience. Some of the benefits associated with providing ready bags to officers would be:

- Prevention: Prevent, avoid, or stop an imminent, threatened, or actual attack or act of terrorism

- Protection: Protect our citizens, residents, visitors, and assets against the greatest threats and hazards

- Mitigation: Reduce the loss of life and property

- Response: Respond quickly to save lives, protect property and the environment, and meet basic human needs in the aftermath of an incident.

15. All projects under this grant must have a nexus to terrorism. Please describe how your project relates to acts of terrorism.

In the event of a terrorist attack within Laramie County, the Sheriff's Department would respond to that event. A terror attack could include attacks on railroads, the State Capitol, WAFB, and other high-risk targets such as CFD. The targets and events could potentially expose responders to chemical, toxic, and nuclear substances not to mention violence. Proper equipment is necessary for our deputies to respond to a terror attack in Laramie County. The requested equipment would help us facilitate a safe response to these events.

16. Provide justification on how the project will be maintained, supported, and sustained.

The receiving Deputy would, individually maintain each ready go-bag. The Department would supply a list of items that should be included and maintained in the ready bag to include, medical supplies, extra ammunition and gear. The riot gear to include, but not limited to (shields, helmets, shin guards, elbow pads, knee pads, batons, baton ring, holders along with gas masks) will be purchased and maintained by the department.

After we have purchased the requested equipment, the Sheriff's Department will maintain control of the equipment, maintain the equipment, and have it at the ready for our deputies in the event of a riot, terror attack, and or a mass casualty event. The department will be responsible for all costs associated with lost or damaged items.

Milestones

Submit a minimum of four (4) milestones for all projects. Milestones should represent a logical progression of the project to allow for realistic monitoring and management of grant funding. This attribute will function as a tool for measuring project progress in future reporting periods. Provide a high level narrative description of activities to occur within each milestone including anticipated milestone dates/timeframes.

23. First Milestone/Key Activity. Include your projected Start and End Dates.

Example: December 15, 2022 to December 15, 2023.

A grant award is expected to occur in October 2022. We will establish a budget and accounting line items to prepare for the funding. This milestone will be completed by December 2022.

24. Second Milestone/Key Activity. Include your projected Start and End Dates.

Example: December 15, 2022 to December 15, 2023.

The Sheriff's Department will follow county procurement policies for the purchasing of requested equipment. This is anticipated to occur January 2023-March 2023.

25. Third Milestone/Key Activity. Include your projected Start and End Dates.

Example: December 15, 2022 to December 15, 2023.

Equipment will be assigned and incorporated into the department for retention and maintenance purposes. This will be completed in April-May 2023.

26. Fourth Milestone/Key Activity. Include your projected Start and End Dates.

Example: December 15, 2022 to December 15, 2023.

The final milestone will be to closeout grant funds with the Wyoming Office of Homeland Security. We anticipate having all items under the grant completed by the end of June 2023.

Additional Information**27. Provide any additional information about the project you would like us to consider.**

You may upload a document if you need more space.

Thank you for your consideration.

(01PC) NFPA 1971 Ensembles (Proximity Fire Fighting with Optional CBRN Protection)

(01PC-01) NFPA 1971 CBRN Ensemble

01PC-01-ENSM Ensemble, Protective, Proximity Fire Fighting with Optional CBRN Protection, NFPA 1971

Description: Proximity fire fighting protective ensemble with optional CBRN protection (certified as compliant with NFPA 1971).

Applicable Grant Programs: Amtrak , LETPA-SHSP , LETPA-UASI , MMRS , OPSG , PSGP , SHSP , THSGP , UASI

Grant Notes: Not for routine use. NFPA 1971 ensembles purchased under this grant program are allowable only to supplement normal stores, in order to provide the surge capacity necessary for CBRNE terrorism response.

Applicable Core Capabilities: Environmental Response/Health and Safety , Public and Private Services and Resources , Screening , Search , and Detection

(01PF) NFPA 1971 Ensembles (Proximity Fire Fighting)

(01PF-01) Required Elements

01PF-01-FTWR Footwear, Protective, Proximity Fire Fighting, NFPA 1971

Description: Proximity fire fighting protective footwear (certified as compliant with NFPA 1971).

01CB-03-TRST Suit, Training

Description: Training suit based on similar design, but different materials than Item 01CB-03-ENSM.

Applicable Grant Programs: Amtrak , LETPA-SHSP , LETPA-UASI , MMRS , OPSG , PSGP , SHSP , THSGP , TSGP , UASI

Grant Notes:

Applicable Core Capabilities: Environmental Response/Health and Safety , Interdiction and Disruption , Mass Search and Rescue Operations , On-scene Security and Protection , Public and Private Services and Resources , Screening , Search , and Detection

(01CB-04) NFPA 1994 Class 4 Ensembles

01CB-04-ENSM Ensemble, Terrorism Incident Protective, NFPA 1994 Class 4

Description: NFPA 1994 Class 4 CBRN Terrorism Incident Protective Ensemble, including garment, gloves, footwear, and CBRN APR or PAPR (certified as compliant with NFPA 1994). NFPA 1994 Class 4 certifications specify these elements by make/model -- using any element other than those specified invalidates the certification. The elements of this Item should be purchased and used as a complete ensemble.

Applicable Grant Programs: Amtrak , LETPA-SHSP , LETPA-UASI , MMRS , OPSG , PSGP , SHSP , THSGP , TSGP , UASI

Grant Notes: Class 4 requirements were newly established in the 2007 edition of NFPA 1994, which became effective on 17 August 2006.

Applicable Core Capabilities: Environmental Response/Health and Safety , Interdiction and Disruption , Mass Search and Rescue Operations , On-scene Security and Protection , Public and Private Services and Resources , Screening , Search , and Detection

Notice: The 2007 Edition of NFPA 1994 introduced substantial changes in the requirements, including elimination of Class 1, new requirements for Classes 2 and 3, and addition of Class 4. Currently, several products have been recertified as compliant with the new Class 2 requirements. However, only one ensemble has been certified as compliant with the new Class 3 requirements (this certification is currently on hold pending further testing by NIOSH), and none with Class 4.

(01CL) NIJ 0116.00 Law Enforcement CBRN Protective Ensembles**(01CL-01) Law Enforcement Response Level 1**

01CL-01-ENSM Ensemble, Law Enforcement CBRN Protective, NIJ0116.00 (LERL-1)

Description: Law Enforcement CBRN Protective Ensemble (including garment elements, hand protection elements, foot protection elements, and CBRN SCBA) certified as compliant with NIJ 0116.00. The requirements for Law Enforcement Response Level 1 (LERL-1) apply to ensemble models and ensemble elements intended to provide protection to law enforcement personnel making tactical entry into environments involving CBRN hazards, conditions in which contaminant concentrations are unknown or are known to be at or above immediately dangerous to life and health (IDLH) levels and/or the atmosphere is oxygen deficient, requiring the use of a NIOSH-compliant CBRN self-contained breathing apparatus (SCBA), and flame and flash fire hazards. LERL-1 ensembles are intended to withstand the rigorous use associated with tactical operations. These ensemble models are required to be tested against two CWAs and 24 TICs that are representative of many chemical threats. NIJ 0116.00 LERL-1 ensemble certifications specify all constituent elements (garment elements, hand protection elements, foot protection elements, and CBRN SCBA) by manufacturer and model number. These ensembles must be worn as complete ensembles with all elements, and using any element other than those specified within the ensemble certification invalidates the certification.

Applicable Grant Programs: LETPA-SHSP , LETPA-UASI , MMRS , OPSG , PSGP , SHSP , THSGP , TSGP , UASI

Grant Notes:

Interactive versions of this list, including an integrated AEL/SEL display are available on-line at www.rkb.us.

Grant Notes: DHS has adopted the NIOSH Standard for Chemical, Biological, Radiological, and Nuclear (CBRN) Open-Circuit Self-Contained Breathing Apparatus (SCBA). Only retrofit kits certified by NIOSH as compliant with this standard are allowable.

Applicable Core Capabilities: Environmental Response/Health and Safety , Fatality Management Services , Interdiction and Disruption , Mass Search and Rescue Operations , On-scene Security and Protection , Public Health and Medical Services , Public and Private Services and Resources , Screening , Search , and Detection , Supply Chain Integrity and Security

Note: Any products on the RKB that meet the mandatory requirements for this AEL item will be listed in the Knowledge Links at right as "Certified Products in RKB." However, this is not an exhaustive list. Products that meet the certification requirements and restrictions stated below are allowable whether they have been listed on the RKB or not.
