In our years of building in Wyoming we have completed many different types of projects as noted in the margin. S&S Builders has performed work under many different delivery systems, including CMAR, Design-Build, and traditional Bid Build methods.

Our company's biggest assets are our diverse group of employees, many of whom are shareholders. We currently have 27 shareholder/employees who all take a personal interest in the success of every project. We bring a group of long-term employees with a long history of experience, as well as some new additions to our group, who also bring extensive experience in their field. In addition to our staff in Cheyenne, we have a team with similar talents in Gillette that can be available to assist if there is a need.

As a company, we typically perform 30 plus million dollars in volume. We manage projects from 200,000 to 25,000,000 in size. We manage 15 to 50 jobs annually depending on the mix and size. We typically self perform concrete, certain site work, framing, steel erection, finish carpentry and HVAC. We are capable of performing drywall, acoustical ceiling, paint, plumbing and data installation if subcontractors are not available or are unable to meet the schedule.

We have included a few projects in this proposal to showcase our experience and you can view more on our website at www.ssbuilderllc.com.
