I would like to know all of the details and facts surrounding the decision to sell the metal panels. I'm sure with understanding the whole situation we could support your decision. Thank you

The non-transparent sale of old livestock panels to out of state beneficiaries who then sold them at money making markup prices. Local kids not given a chance to buy for their ag and entrepreneur endeavors. Curious

and would ask Commissioners and board to explain why...and also account for the money obtained from the sale.

I am writing in to express my concern with many others in the community on the sale of the old livestock panels. I feel the Laramie county residents are looking for answers and that is all. We know it's a done deal but as avid member of 4-H and the community I feel we have the right to know why the old panes were sold without being offered to the youth first. And also where all the money for the panels went. Dan was sent an email asking these questions and were told he reached out to all the FFA advisors and 4-H office to offer them. He also stated he consulted with all the fair personal and county commissioners and was agreed upon to sell them. Laramie county youth are the one that work so hard on their projects here why not be sure they are offered them first. I think what is wanted most right now is answers. We have been lied to so much we just want an apology and the truth. If it was overlooked great, own that and say it. Dan stated it was the Advisors and 4-H office not getting the word out. So what is the truth?

I am writing in regards to my concerns and extreme disappointment in the sale of the old pens from the Laramie County Fair. When looking on Facebook I noticed several individuals selling pens, I was shocked to see the photos taken were clearly at frontier park meaning these were the pens that used to be used for the county fair. These individuals were all big breeders in Colorado who were selling them for double of what they were purchased for (\$1,000 for a set of 4 pens.) After reaching out to a friend she informed me that she contacted Dan with the county fair he stated he contacted 4-H educators, FFA advisors, and families to no one wanted to come to pick them up. I found this odd since so many families stated to the fair that they wanted them so I reached out to other families, FFA advisors, and the 4-H educators and NO ONE had heard about the sale and were equally angry. As a family that could have benefited greatly from the pens I as well as many other families feel this sets the precedent that money is significantly more important to our county than caring for the youth that take pride in fair. This took away the opportunity for many young agriculturalists to provide a safe and effective way to improve their project and is a disservice to the members of our community. Seeing as this was the sale of COUNTY property without notifying anyone I think it is only fair to provide answers to why these were sold without notifying the county and where this money will go.

The sale of the old Fair Panels without Public notice to FFA and 4H families to purchase before selling outside Laramie County.

Why were the old fair panels sold to not just out of county but out of state individuals prior to letting members and youth of our county and community have first shot at them? For a group of adults that say they have the best interests of the community you surely aren't showing it. This needs to be rectified by the board and not allowed to happen again.
